SPECIAL & NOTABLE CARDS

These cards are typically harder to find unless you have attended an event where it had specific relevance, was part of a Patreon campaign or similar. They include spinoff cards, variations, staff, notable guests, pure nonsense & much more.

LIMIT-BREAK

These cards were introduced to highlight certain characters in their overpowered form, most commonly referred to as limit break.

These come in two flavours. A standard version and sometimes a foil version. These cards are rare and should be considered very valuable. The foil versions are VERY rare.

ARTIST SERIES

We decided to spotlight some of the amazing artists in the community. The artists were commissioned to produce 5 characters that already appear in the main set and replicate it in their own style. These cards are not available in booster packs and must be purchased as a separate set.

PLEASE NOTE: We intend to start discontinuing Artist Series from Generation 3 in 5.x - Details will be shared in advance.
