

Dragon Ball GT: Earth Tuffleization plan

Preview

This comic takes place after Baby takes over C-18's body and, with his new energy, he can finally make his next move: taking over Earth. As he moves in the center of the city, he starts to convert all peoples making them his tuffle slave until the arrival Videll, which try to stop C-18 only to become herself another tool of Baby for enslave all Earthlings.

Plot

The scene opens with C-18, possessed and in the Strongest Form 1, flying over the center of the city and stopping in mid-air. As she watches with a superiority behavior the surrounding people, she/Baby states his interest on trying her new body and abilities, while under her a group of people, noticing a woman flying in midair, stop and start to watch incredulous the figure. As more people start to gather watching what is happening, C-18 decides that is the perfect moment and after descending (but still levitating over the crowd) she recall the attention of all people around her. As the people approach, C-18 declares that today is day where they all will reborn as his tuffle slaves and will help him revive his people and take revenge against the last surviving Saiyans.

While the people don't understand what is happening, C-18 makes a malicious gaze like Baby and in a moment from her body (more specifically from the level of her belly) some slice appendices (this have the same consistence and color of Baby's liquid body) erupt and launch against some civilians, partially engulfing them (from their head toward the upper part of their torso) blocking their movement while Baby implants his eggs, before releasing them as they falls to the ground (as their mind and body are being taken over by his eggs, leaving them momentarily disoriented). Seeing this, the crowd escape terrorized while some of the infected victims, as they recover consciousness, immobilize other civilian helping C-18 to enslave all the people she encounter.

In a nearby part of the city Videll is walking in front of a shop, but as she notice people escaping, she fly at the center of the city wandering what is happening. As she arrived she is surprised seeing a portion of the citizens attacking others, and as she try to understand what is happening, from behind appears the possessed C-18, which welcomes Videll for her timely arrival. As Videll ask what is happening and what happen to her, C-18 reply that she has become a servant for her master Baby and she is helping him rebuild the Tuffle race, along with his new tuffles slaves. As Videll is shocked C-18 warns her to not oppose any resistance since that in her current state she is one of the strongests on the planet.

Despite this, and not feeling comfortable to fight against a friend, Videll charge against her hoping she can give at least enough time for the citizen to escape, hitting directly C-18 in the face with a kick, without making any damage to her. As she try to hit her different times, C-18's continues to remain unscathed by the attacks noticing however that despite been just a Human she is much stronger than all others Earthlings. After saying this and without loosing her temperance and behavior, C-18 unleash a burst aura which throws Videll on the ground, making her realize that she

hasn't a chance against her and as she try to get up, C-18 descend in front of her. Expressing a bit of surprising for her stubbornness, she also expression curiosity if her body could be adapt for his/her special "gift", and by this from her belly the figure of Baby face start to materialize and as Videll is sward a portion of Baby spread and engulf completely Videll's body, while remaining attached/bonded to C-18's body.

Unable to move inside the liquid mass body of Baby, Videll try to fight to break free only to be immobilized as Baby manipulates his mass forming appendices which starts to strip off Videll which is unable to do anything and starts to feeling aroused by this. As Baby strip off her last clothes and the panties he start to enter inside her body passing through her body (the vagine, the breast and her mouth) while telling her that soon she will be too one of his loyal followers and that she will help him spread his eggs on all earthlings). As she tries to oppose she hear Gohan voice inside her head which reassured her that she will be fine and that together they will help lord Baby rebuild the Tuffle race; after this Videll faints.

C-18, with a pleased gaze, release Videll which after a moments gets up and as she lifts her face she reveal an evil face as she now is under Baby control too. With this C-18 tells her that she has been gifted with one of his special eggs and that now she will serve and help him transform all the Earthlings of Earth in new Tuffle followers. In hearing so, Videll (maybe at first feeling a sort of headache) release a dark energy aura which start to transform her body, making her assume a form similar to C-18's Strongest form 1, with a muscular body but with the only difference that her eyes are not blue but covered with the red lines (the idea is that this eggs are used on individuals which are able to control their own aura, leaving them to assume temporarily a form similar to the one of Baby/c-18 increase their power until a certain limits, based on their host). As Videll admires her new body appearance and the energy she feels flows inside her she states that is ready to serve Baby in his plans and from this there could be 3 outcomes:

1. The subsequent scene follows C-18 and Videll having a sensual and erotic love scene together.
2. C-18 orders Videll to try his ability to convert people into normal Tuffle by implanting eggs in a similar way she does. With this she notice Valse, Goten girlfriend and after approaching her (which appears a bit scared by Videll appearance or not understanding what is happening) she transform her in a Tuffle, resulting in Valse becoming one on Baby's evil followers too.
3. The scene close simply with the duo moving away as they are going to take over all the people of Earth, creating the base for a sequel.

I was thinking about a scenario with C-18 standing in front of a terrorized Videl; from her belly spread out Baby's liquid form which is about to engulf Videl, but I would like to leave the choice of what to draw so to have an original idea you could like to draw.

Panel 6: *takes the rest of the lower page and is a foreground view of citizens as they look scared or maybe curious as they see C-18’s belly taking a strange form. (I would like to ask if possible if the citizen which recall the attention of the other peoples could be an chubby woman with an appearance based on Idasam from the Buu Saga or the alien fat woman which Baby possessed when he escaped from the planet Pital. If you have another idea let me know).*

ALTERNATIVE COULD BE A CUTE GIRL LIKE THIS

Panel 4: *takes the lower left and is or a ground view or alternatively view of the chubby woman from the perspective of citizen as he ask her if she is okay while Baby leaves her free from his tentacle. For the 1 case the woman should be shown on the ground on her knees (maybe with her eyes obscured), for the 2 case the woman should be shown from the back with Baby in the background with a pleased gaze.*

Citizen 3: “H-hey!! Are you okay?! Can you walk?!”

evil influence)”.

POSSIBLE EXTRA page

This page could be a little extension of page 13 little sensual scene where C-18 and Videl are going to enjoy their respective body, with some panel showing them kissing and rubbing both they are breasts and vaginas against each other, but I leave the choice if you want to draw this sex scene page and if yes what you would like to draw.

The pose that C-18 should take in some of the scene (at the beginning as she watches the crowd gathering, when she noticed Videl stubbornness and maybe at the end when he/she orders Videl to try her new body) with the crossed arms

This is the concept of how C-18 should infect and convert peoples (she not absorb them like here, but momentarily engulf them while Baby plants his eggs as the ideas is that with C-18's limitless energy, Baby is able to grow a portion of his body through certain limits so he can infect one or more people with his eggs and special eggs)

An idea for the brief fighting scenes between C-18's and Videl, with the first not taking any damage or at least one surprising Baby and so giving him a motive to infect Videl with one of his special eggs).

The black aura as she start to transform in her Hybrid Strongest form 1
