

It's a bright hot sunny day

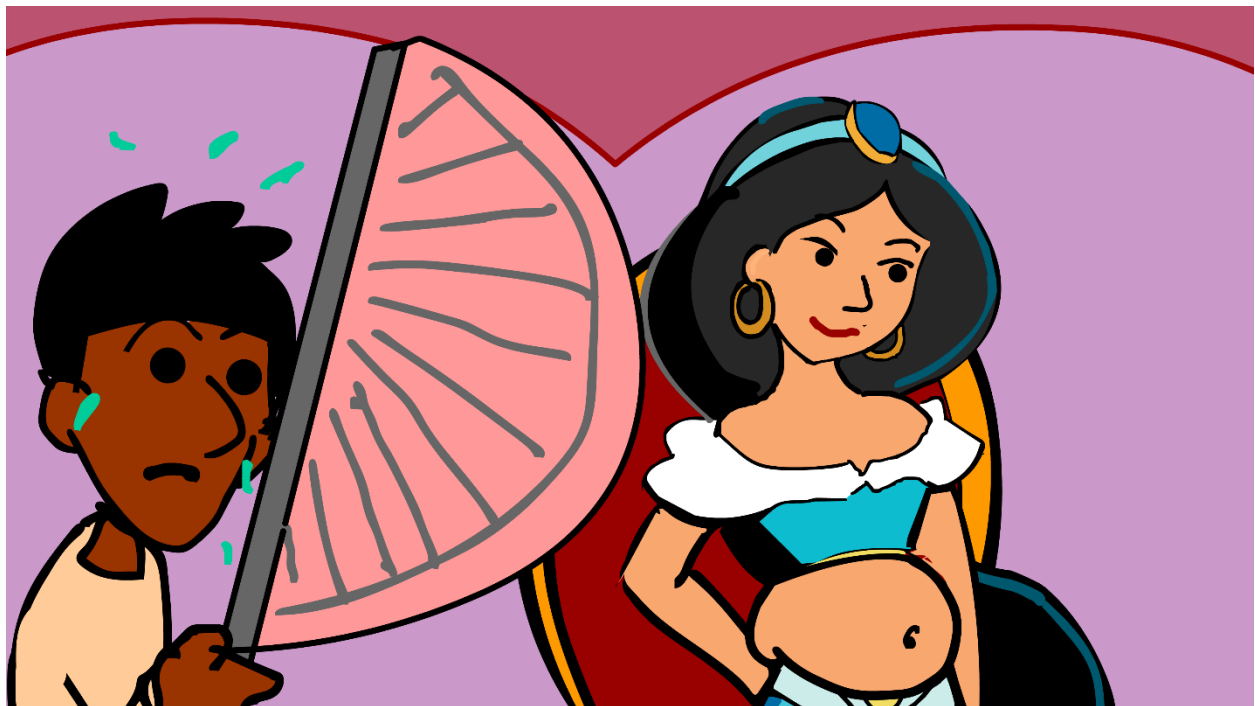

The Princess inside the palace is sweating and wiping the sweat off her face using her handkerchief

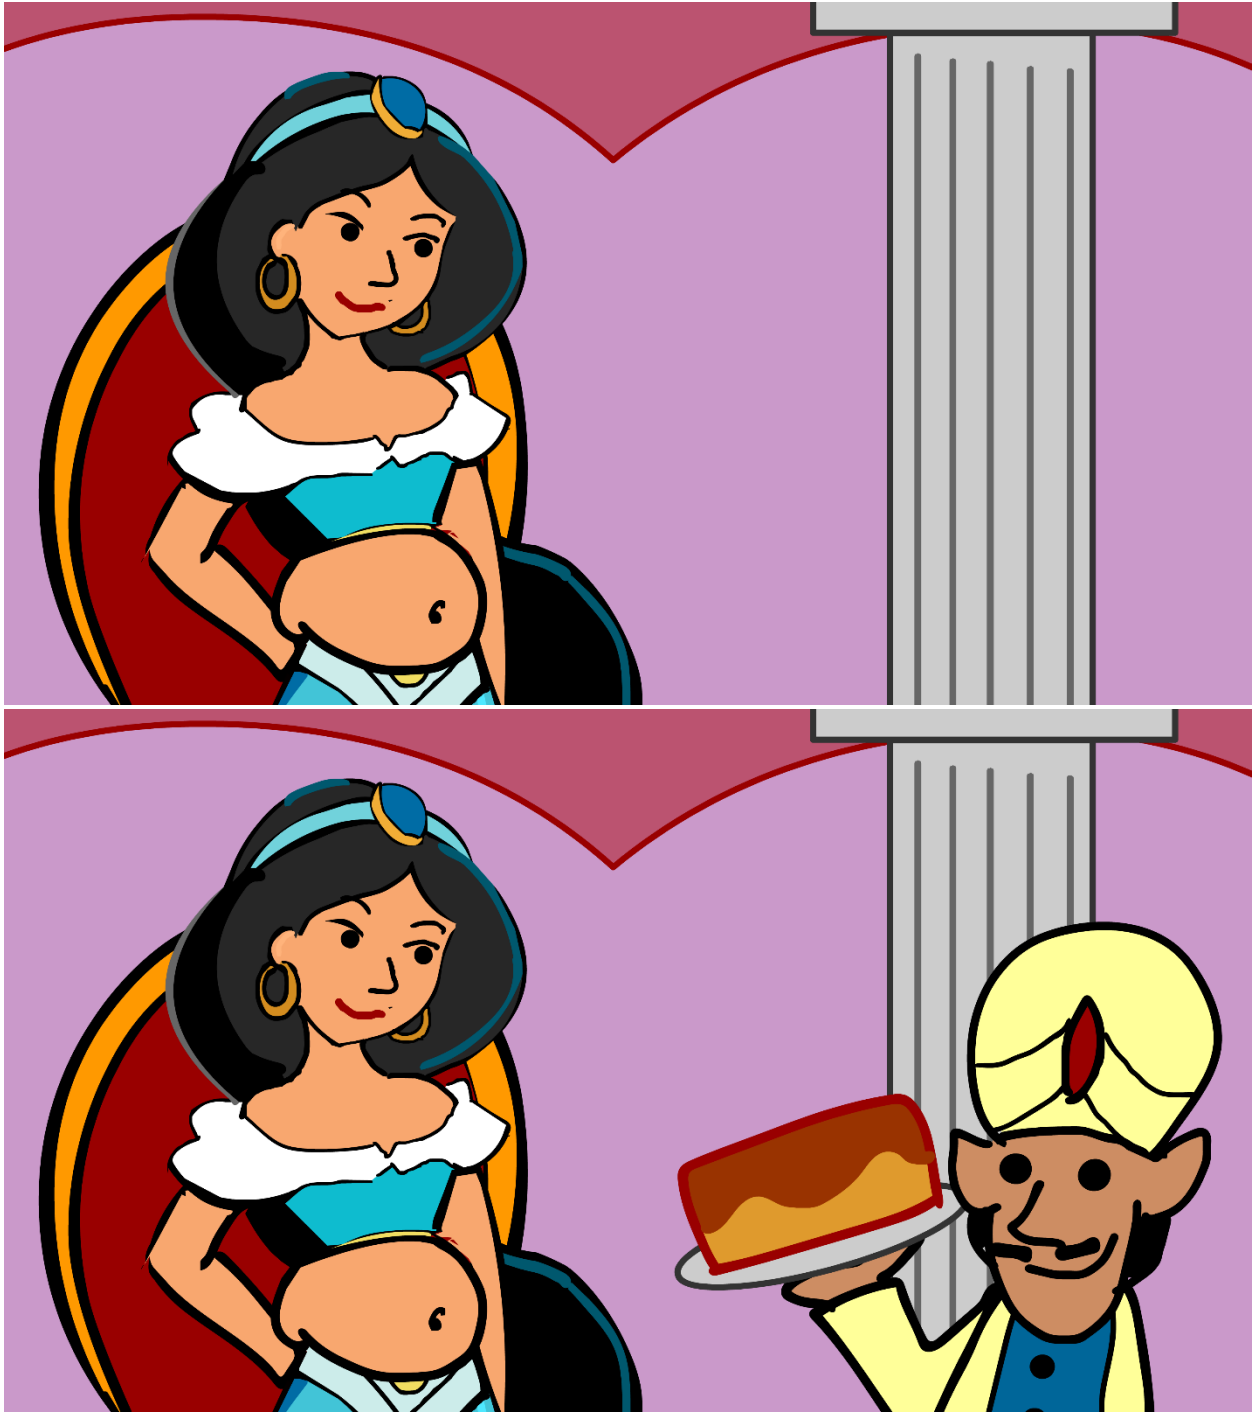

She snaps her finger (Add finger snap sound effect)

Immediately a slave comes with a big fan to cool her down. He is sweating and thin. She is looking a bit chubby.

As she cools down a Prince with a big cake shows up

She takes the cake and eats it all up making her belly more fatter

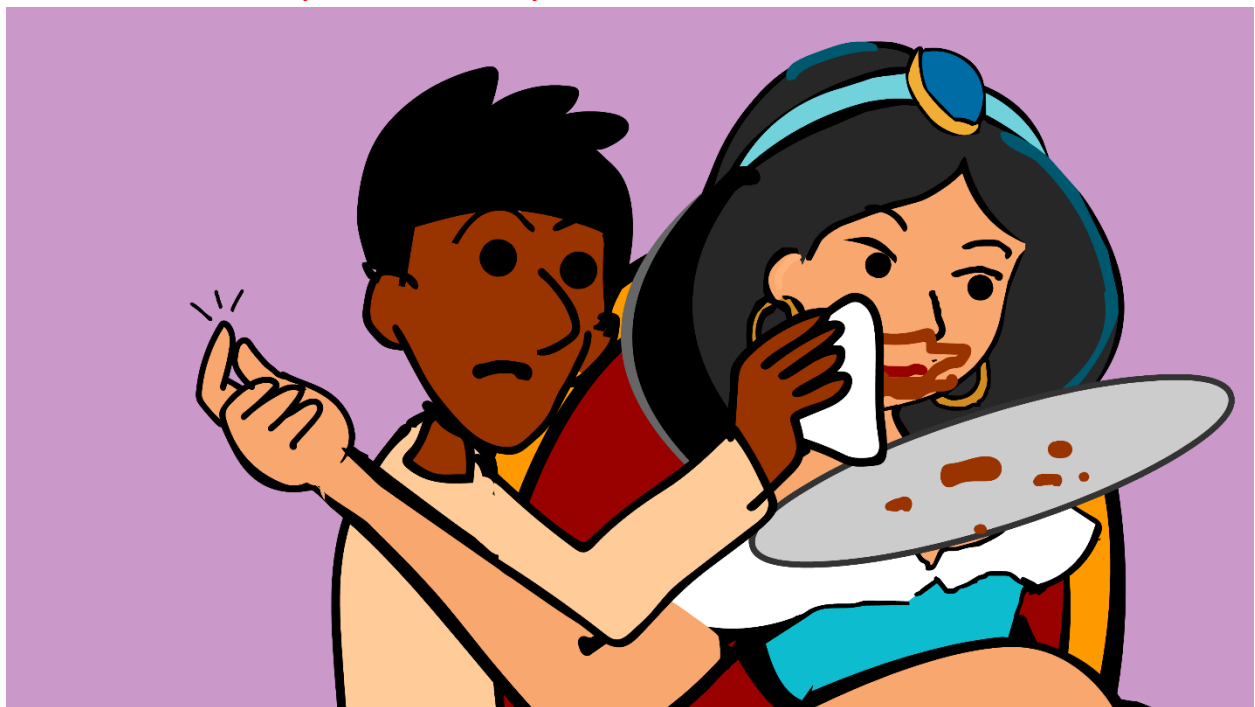

She snaps her finger for the slave to come

He comes and wipes her messy face clean

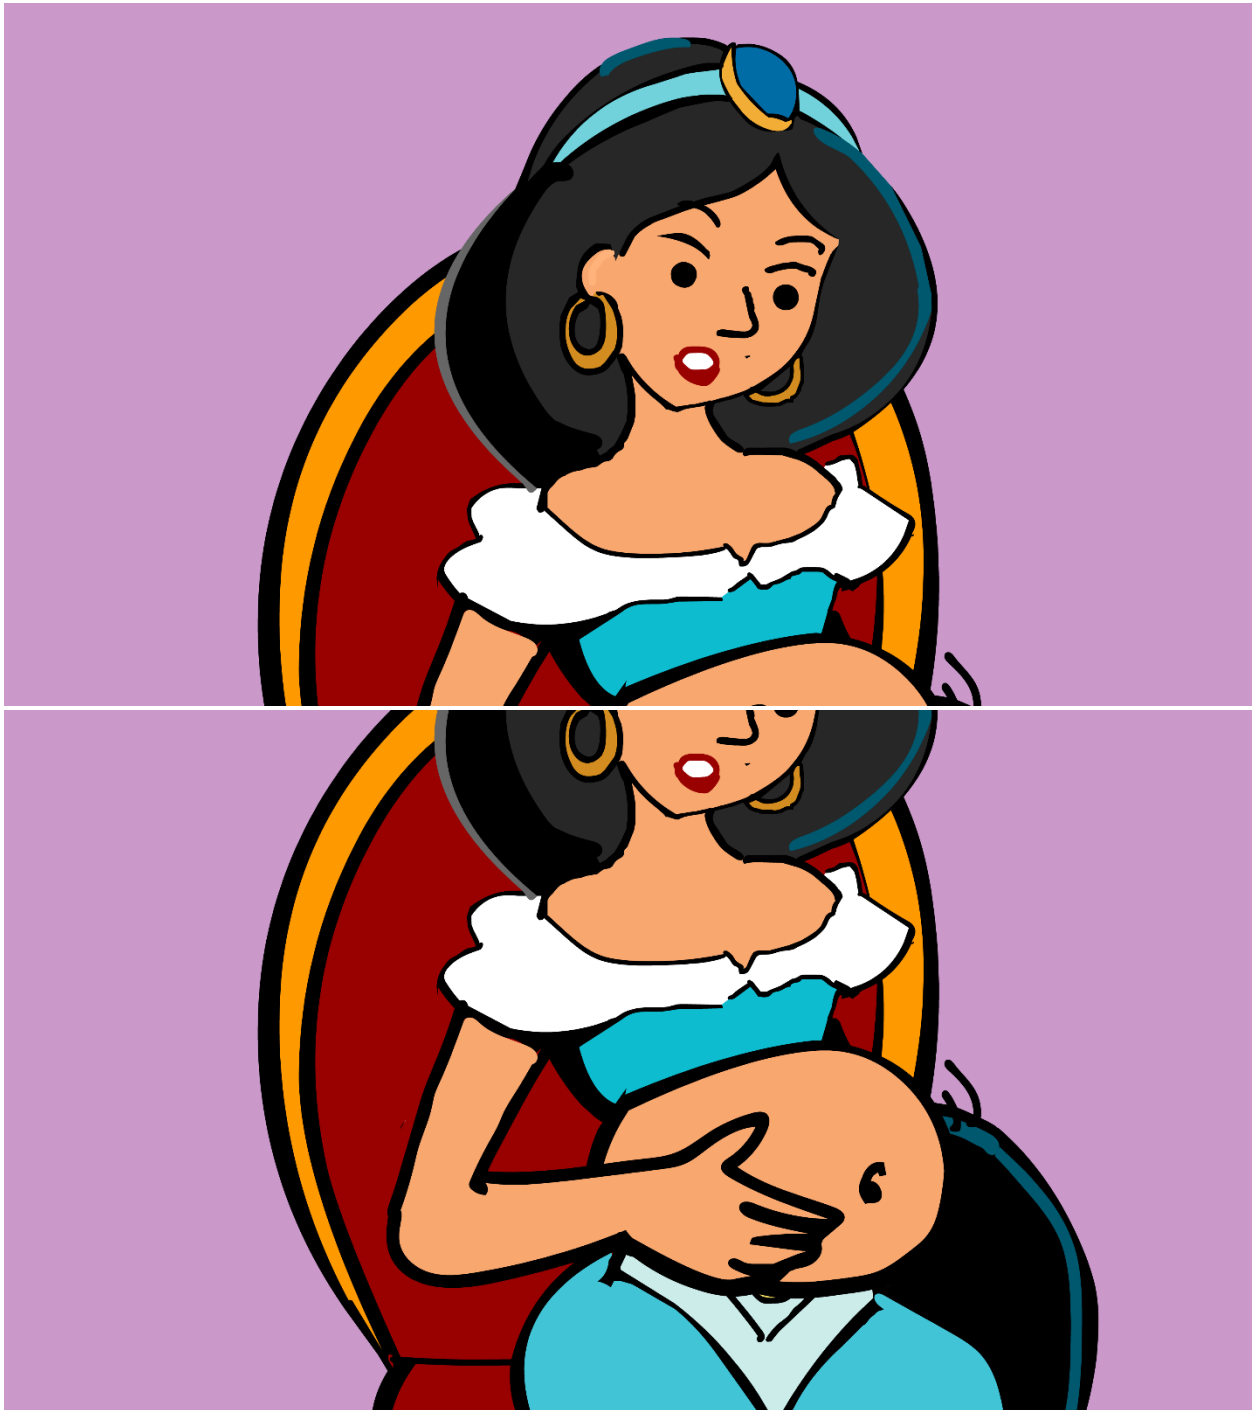

With another snap she gets another servant to take away her empty plate

She notices her belly is a bit too fat now. She grabs her belly fat with her hands

She snaps her fingers again

The slave brings her a bowl of fresh fruits and vegetables

She sticks her tongue out in disgust of the healthy food diet and throws it all away

She snaps her finger again and in a flash we go to the next outdoor scene

We see a sign posted on a tree

The local Troll Cat sees the poster and gets an idea

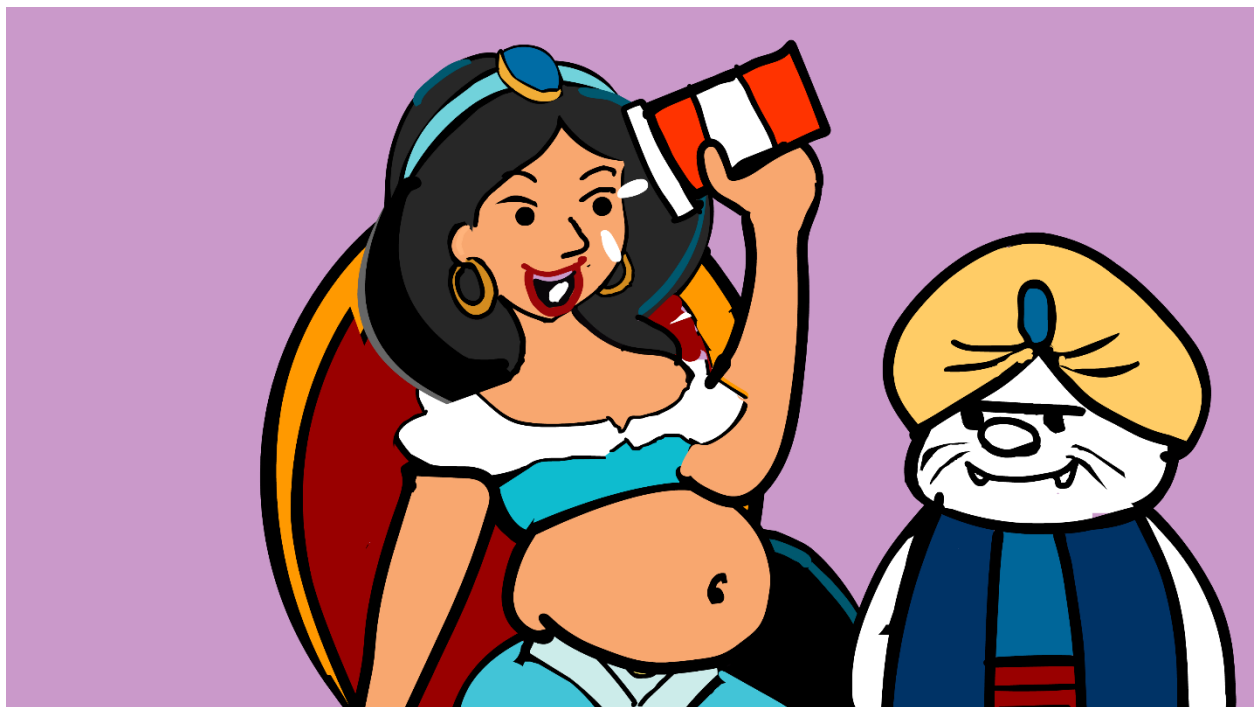

He shows up at Princess Jasmine's palace with a box of magic pills. The Princess is excited to slim down very quickly

She sees the label as “DIET PILLS” or “INSTANT SLIM”

She takes the entire box of pills and swallows it all up.

Instead of becoming thin she becomes extremely fat
