

Thank you for buying this DLC! I really appreciate it :)

DOWNLOAD REQUIREMENTS

Programs

VRChat Creator Companion (Make sure you're using Unity 2022)

<https://vrchat.com/home/download>

Blender 3.6 or later

I use [Blender 3.6 LTS](#), but the .blend files will NOT work before 3.0;

I also don't advise using 4.0+ but it may be fine!

<https://www.blender.org/download/>

Packages / Etc

[Mesh Data Transfer](#)

[ADJerry91's VRCFaceTracking Templates](#)

[Pumkins Avatar Tools](#)

[VRCFury](#)

[Soap Cats](#).. this package ***will not work*** if you don't own the base ^_^

Reccomended but not required

Avatar Emulator & Gesture Manager (both already available in Creator Companion)

UPLOAD INSTRUCTIONS

Make sure you watch the tutorial video, this facetracking package patching method works MUCH differently than most other facetracking DLC's do.

TUTORIAL

Things to note

- If you are using **eyebrow fluff, the beard, or the mustache**, you need to **merge** those in to your cat in Blender before the final export. I had forgotten them in the main tutorial and don't want to re-record it 😞
- I am not providing support on how to use programs to transmit your facetracking data into VRChat, I have [demo avatars with facetracking in my world](#) if you want to verify that your tracking works on this package. This package was tested with a Quest Pro using [VRCFT](#)
- I am not providing support for VTubers trying to get this to work in VSeeFace, these are ARKit blendshapes so you can definitely get arkit tracking on your soapcat vtuber, but I haven't personally done any setup for that and do not own an iphone so I am unable to help.

TERMS OF USE

([Most up to date TOS here](#), the included TOS is here just in case that link ever dies)

This Terms of Use only applies to original content from ironicssoap, and does not apply to the separately licensed content modified from Adjerry91. Please read "License.txt" to see what files this TOS does not apply to.

DO NOT:

- Re-sell or re-distribute the any of the downloaded content
 - INCLUDES:
 - Reuploading to another site for free or for sale
 - Sending the files to a friend who has not purchased the product
 - Porting the product to other software / games with the purpose of reselling or redistributing the port to others who haven't purchased the product.
- Use or edit the product in any offensive / hateful ways; such as but not limited to: homophobia, transphobia, racism, antisemitism, hate speech, etc
- Create explicit sexual / fetish edits or use for explicit content. (Basically: no NSFW)
- Use for any NFT or crypto purposes
- Claim credit for the product

YOU MAY:

- Use on a streaming avatar
- Use in Youtube / Twitter / TikTok / etc posts!
- Use on public avatars in VRChat
- Tag me in your posts!! I'd love to see people using and enjoying the DLC :]
- Port the product to other software / games (in relation to Soap Cats), as long as you follow the rest of the TOS :)
 - Uploading the product to another software/game where people who have not purchased it may obtain it counts as re-distributing the product.

Commercial Use terms

- Selling commissions with the DLC is allowed! However the commissioner is required to own the DLC as well. Even if the avatar is uploaded as public for them to clone.
 - Other commercial use situations that are not covered here, PLEASE contact me about! (3D printing, using in merch, etc)
-

Credits

This facetracking DLC uses a slightly modified version of Adjerry91's ARKit VRFaceTracking template! This wouldn't be possible without his awesome work :)

<https://github.com/Adjerry91/VRFaceTracking-Templates>

My friend Aura also helped me set up the patcher for this DLC, check them out!
