1. Introduction

Waifu academy

"In Waifu Academy, you play as young man (with a name of your choice, of course), who wishes to seek revenge after many years of harrowing ordeals... The game features more than 30 characters, each of which is unique and has a (hopefully) believable background. Most of the game scenes take place at a fictional private high school called Sazaki Academy."

Waifu Academy is an Adult Visual Novel with branching choices, a morality system and plenty of sex options throughout the extension of the story. The game has music and sound effect, but no voice acting, it also counts with pre-rendered 3D images and animations.

You can find a link to Irphaeus' Patreon [here](#).

How to use the walkthrough

This walkthrough leads you through (almost) every choice that is available. Some of these choices don't have any impact at all, others will change your playthrough considerably.

It is recommended to use multiple save files and save at the most pivotal moments, such at choices that give different values of Karma points or choices that will split the story paths of specific Waifus. So far there are no split main story paths but that will change with a fully implemented Karma System and the progression if the future story.

Also this walkthrough is tailored to get most of the Lore available, which you should read and enjoy, because it is very good!

FAQ

What's the Engine for Waifu Academy?

The game runs in Ren'py, it can be played in Windows (both 32 and 64 bit systems), Linux, Mac and Android and has the usual features that come along with it: rollback, free save system, quick save and quick load.

Does this game have a Gallery?

Yes, as the game progresses, more images are unlocked and can be viewed in the gallery. You can find the choices needed for the events in the gallery in this walkthrough.

What fetishes are included in the game?

For the most part, the game is straight vanilla with anal, creampie, Double Penetration, light BDSM, but with the occasional sharing, incest and rape and bestiality. There is no NTR, lolicon, gay or futa content at this point. Pregnancy will most likely be implemented.

What's Waifu Hunter?

It's Irphaeus' next game, set in a fantasy world and featuring Brothel Management, Quests, and Sex Combat. You can see the ads in Waifu Academy playing on TV sometimes.

Are there any cheats for the game?

No cheats per se, but one can use the Ren'py console to change the save data. This way parameters can be changed to get different routes. But be careful, this can damage your saves.

How can I get money?

Money can be earned by progressing the story, but there are no out-of-story uses for it yet implemented.

What's best: Low or High Karma?

We don't know that yet except for the fact that there will be different endings based on the Karma: Good, Evil and Opportunistic Route. What exactly each route means is not yet known. But low Karma can lead to darker outcomes, while high Karma will give good outcomes. So far that only shows in different text responses.

What are those VIP Waifu?

It's a reward for the highest ranking Patrons, they can design a Waifu to be added to the game as long as they fit in the world. There are 10 VIP Waifu and no more will be added for Waifu Academy.

How are the Models in the game made?

They in game models and renders are from a heavily modded Honey Select.

This is the start of the HoneyBee Graduation Event. Over the course of the event we have to answer questions, compliment and favor the girls to be able to chose one of them and help them "graduate" through sex.

Right now we can only choose Kanu but in the future we can be able to choose between Sheila, Sarah, Rose or Kanu.

We can compliment the HoneyBee girls to get Compliment Points.

Don't Mind Him +1 Rose Compliment
 You Look Lovely +2 Rose Compliment
 Smaller Fruit +3 Rose Compliment
 Say Nothing

We can choose which girl we like the most and favor here.

"Suits Perfectly" seems to be the best answer, but so far it doesn't matter.

The Hairband will bring us positive Karma and the Collar negative Karma.

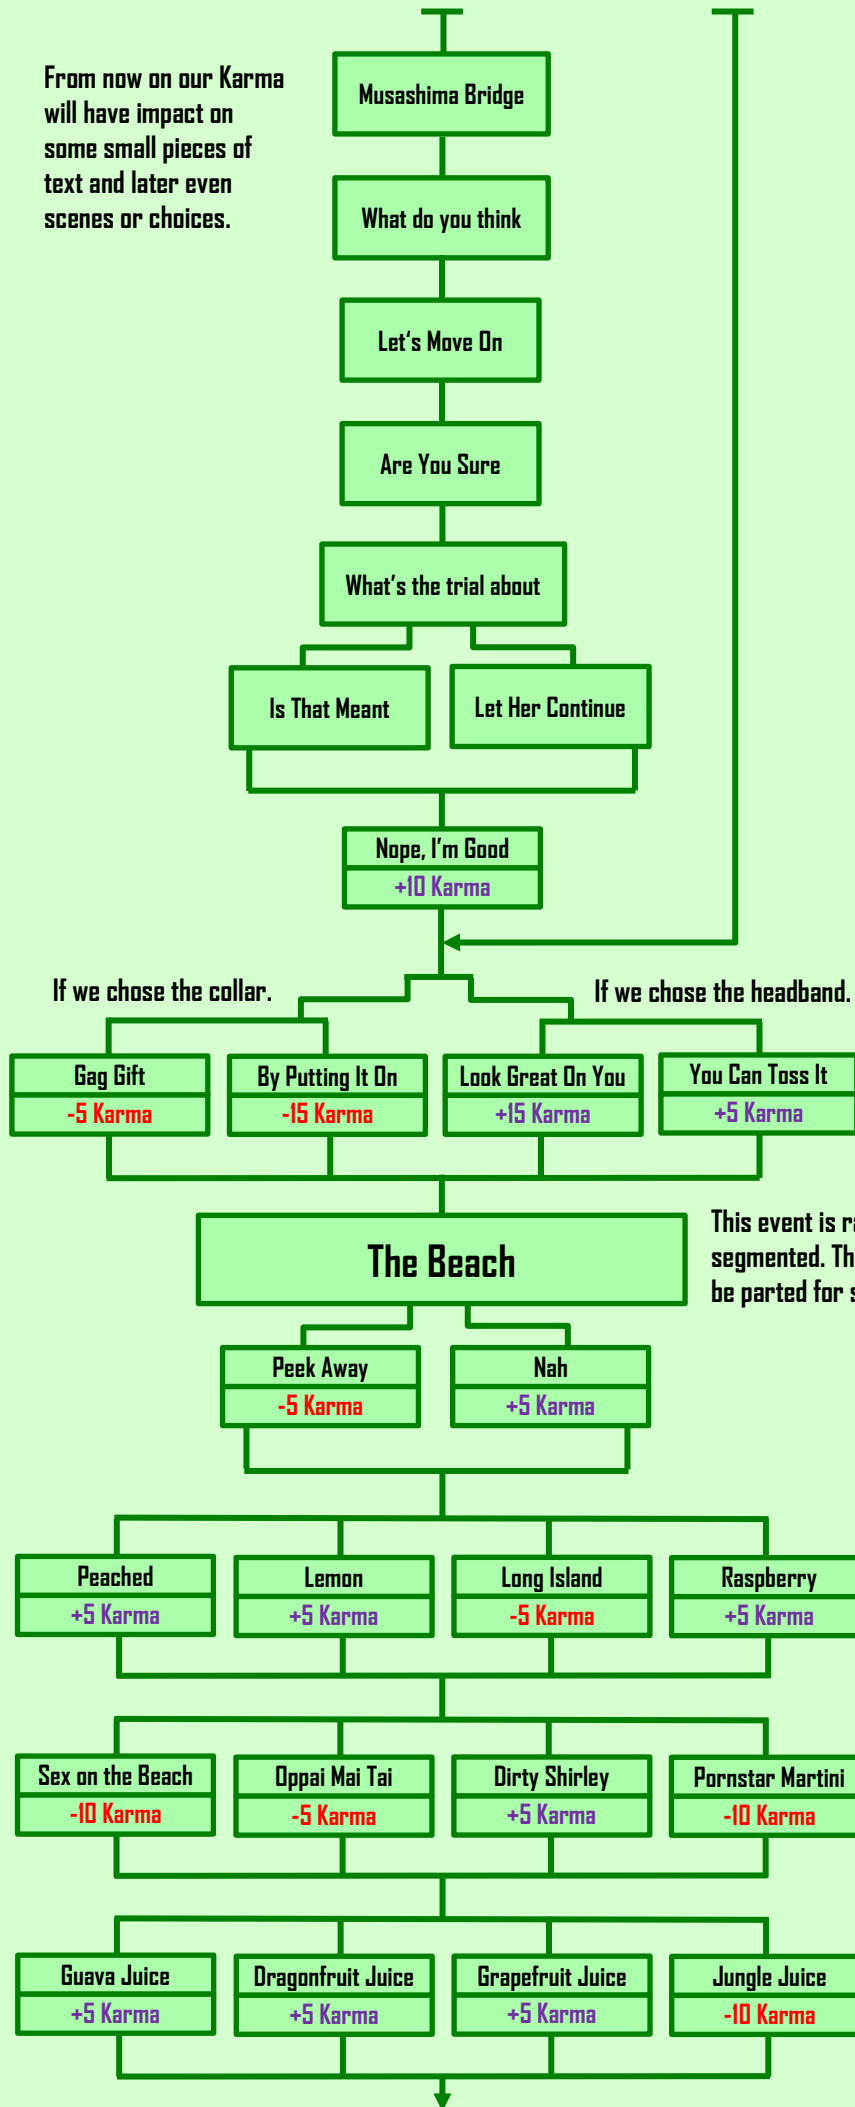

Read the Lore my dudes! It's really good!

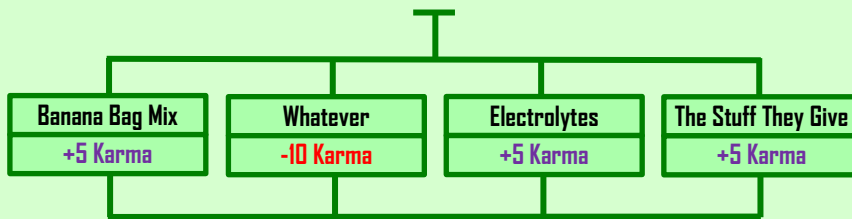

In the future this choice might open up different choices.

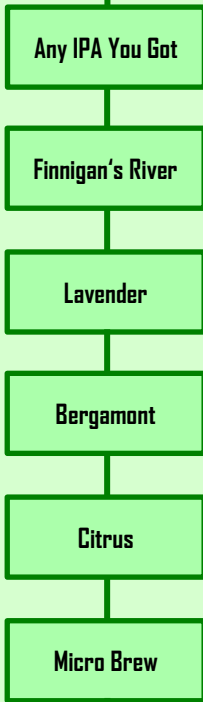

From now on our Karma will have impact on some small pieces of text and later even scenes or choices.

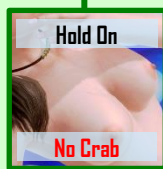

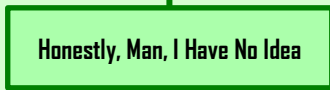

This event is rather big and segmented. The walkthrough will be parted for some choices.

These are the right choices to get the Tochiro Easter Egg. If you don't want to go through the trouble just choose randomly.

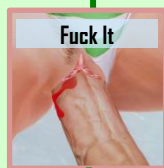

This ends the Tochiro Saga successfully.

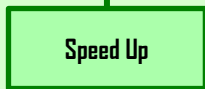

If we get the Crab we can have a very sexy Scene with Maki, Nanali or Motoko later but won't be able to fuck Yukiko.

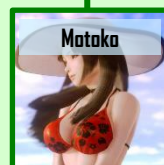

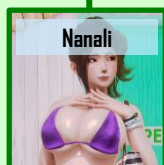

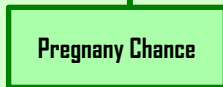

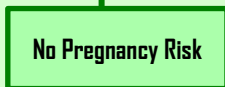

If we get no Crab we can fuck Yukiko but will only get kinda sexy scenes with the other Waifus later.

Yukiko Scene

In the future these choices might lead to Pregnancy.

This choice will have impact on the relationships with these Waifus. But don't fret, this wont be the last chance.

Sadly doesn't work

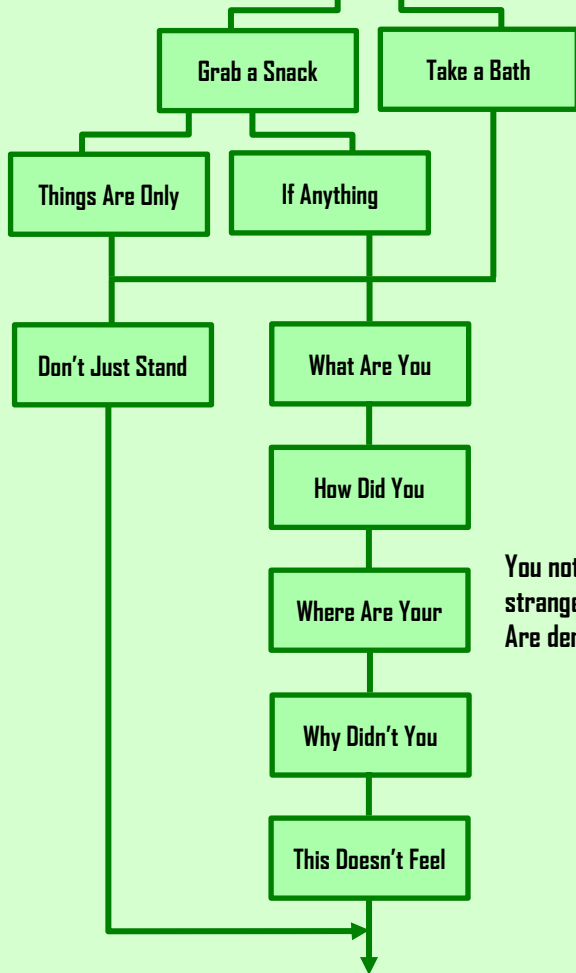

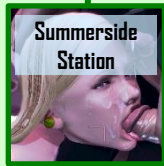

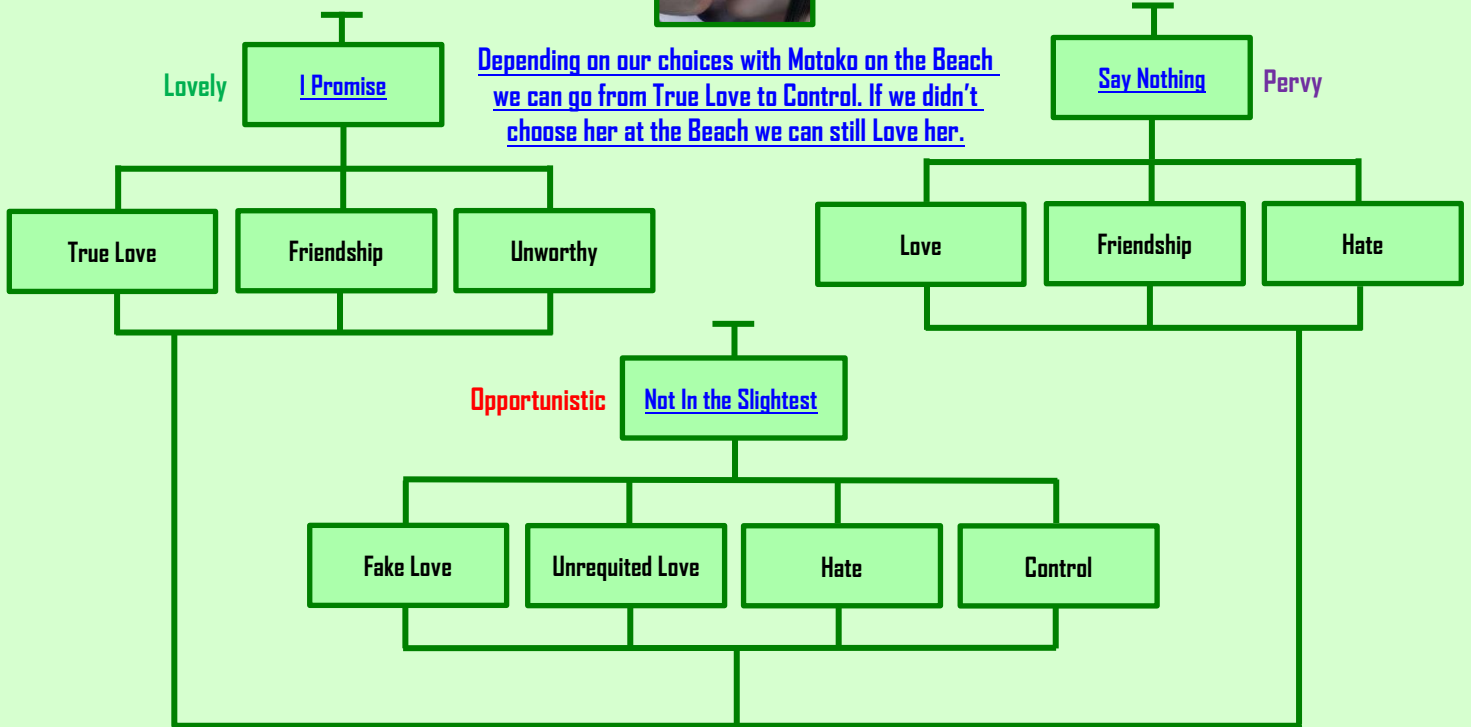

Find out which Waifu or Guyfu you truly are!

Depending on what we did with Motoko in the library we will go down different routes. These will decide our relationship with her.

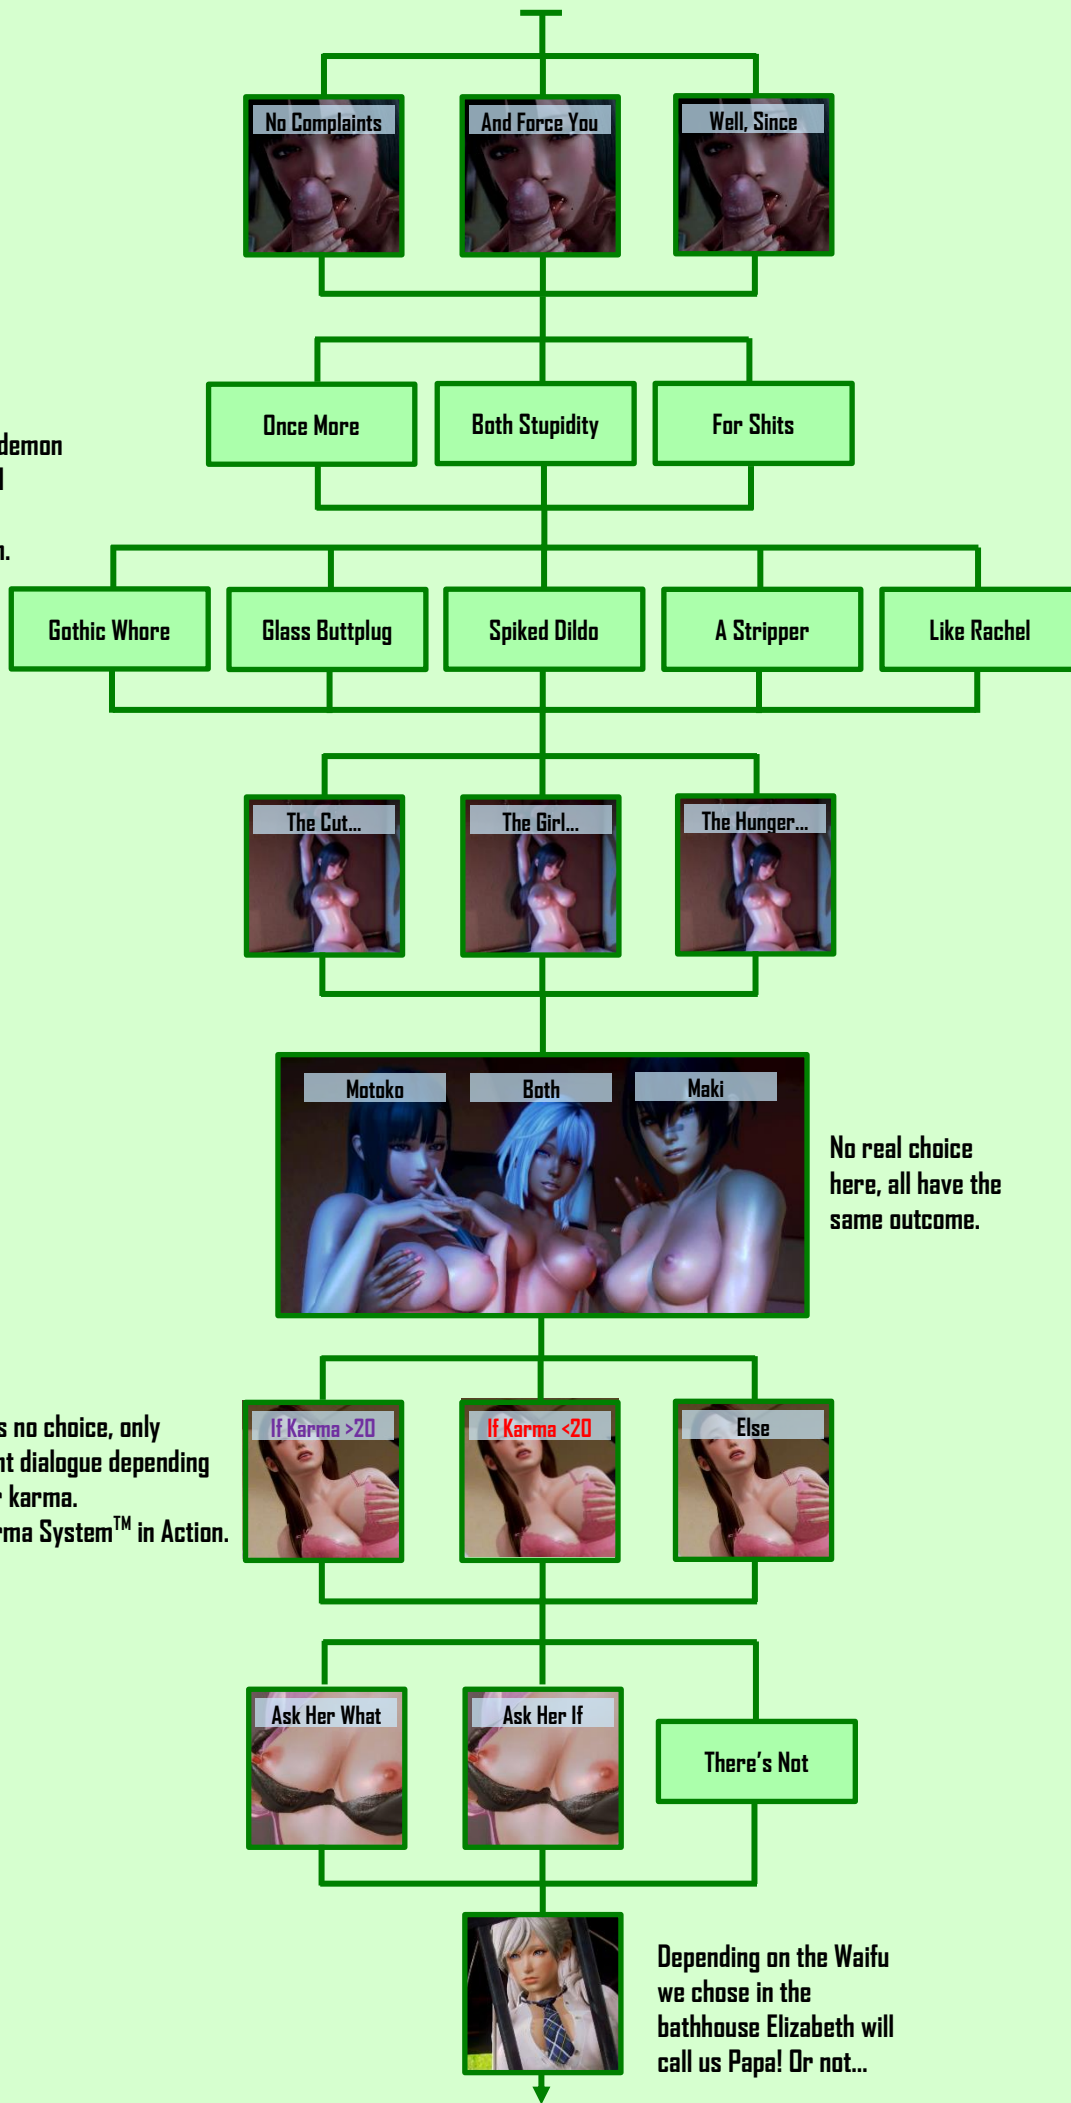

Depending on our choices with Mataka on the Beach we can go from True Love to Control. If we didn't choose her at the Beach we can still Love her.

You notice lots of strange things. Are demons afoot?

Comparing the demon to a "Waifu" will maybe open up choices later on.

No real choice here, all have the same outcome.

There is no choice, only different dialogue depending on your karma. The Karma System™ in Action.

Depending on the Waifu we chose in the bathhouse Elizabeth will call us Papa! Or not...

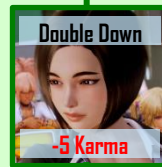

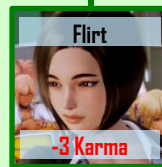

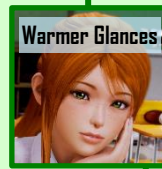

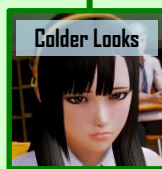

Depending on what we did to Yoko in her apartment we get a slightly different response.

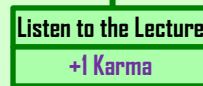

Depending on our relationship with Asuka and she will greet us differently.

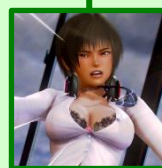

Depending on what we did with Motoko on the beach we get different responses. Or if we didn't do anything with her at all.

Lore for the Lore God!

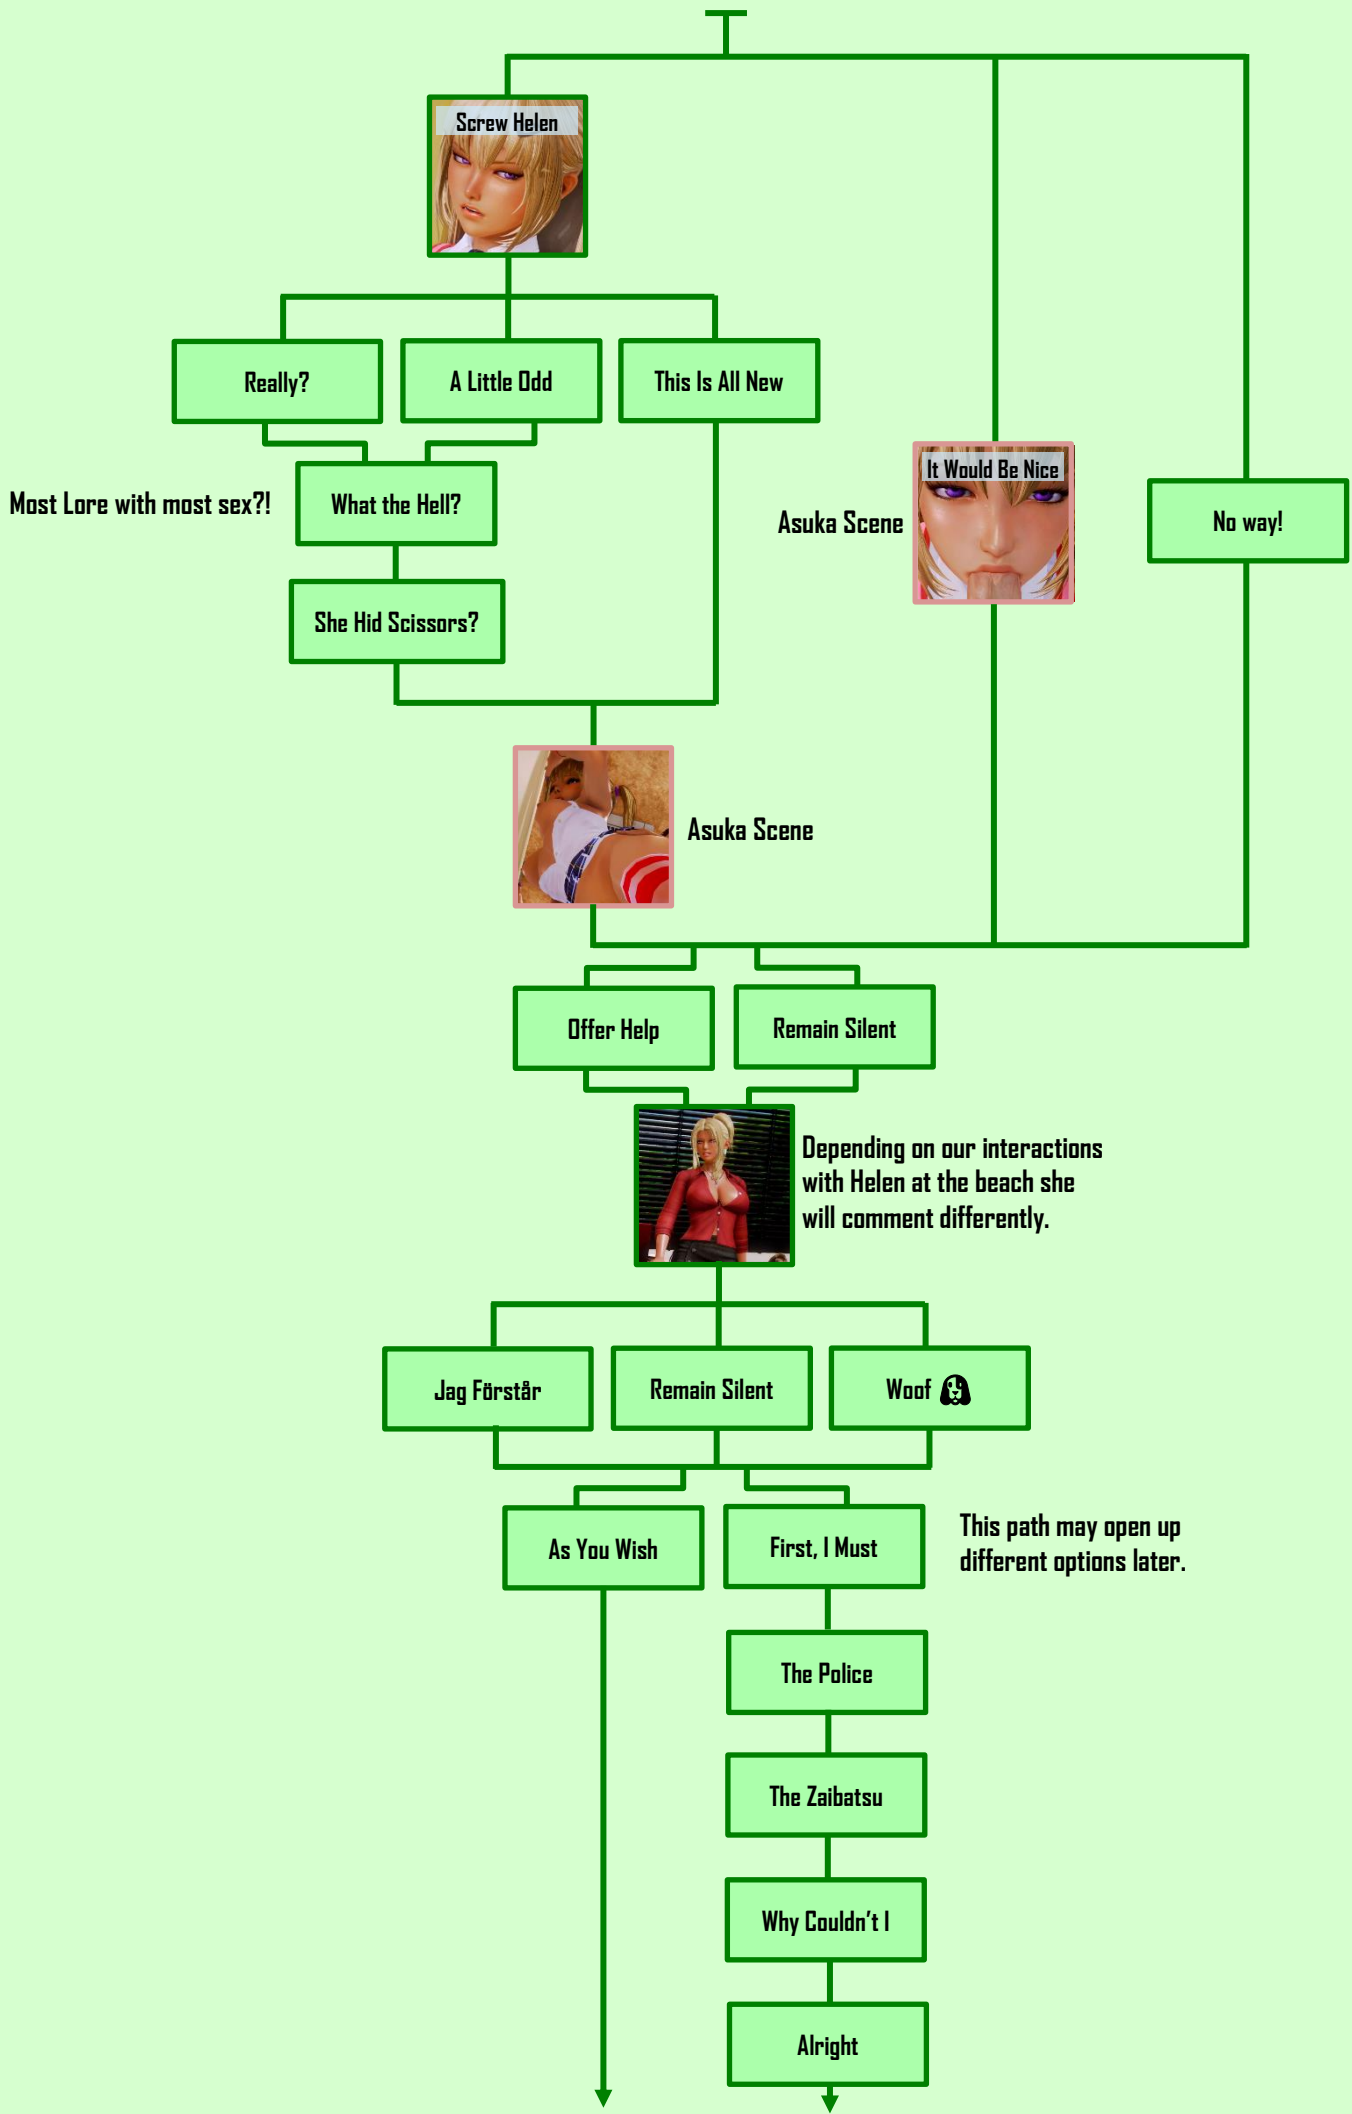

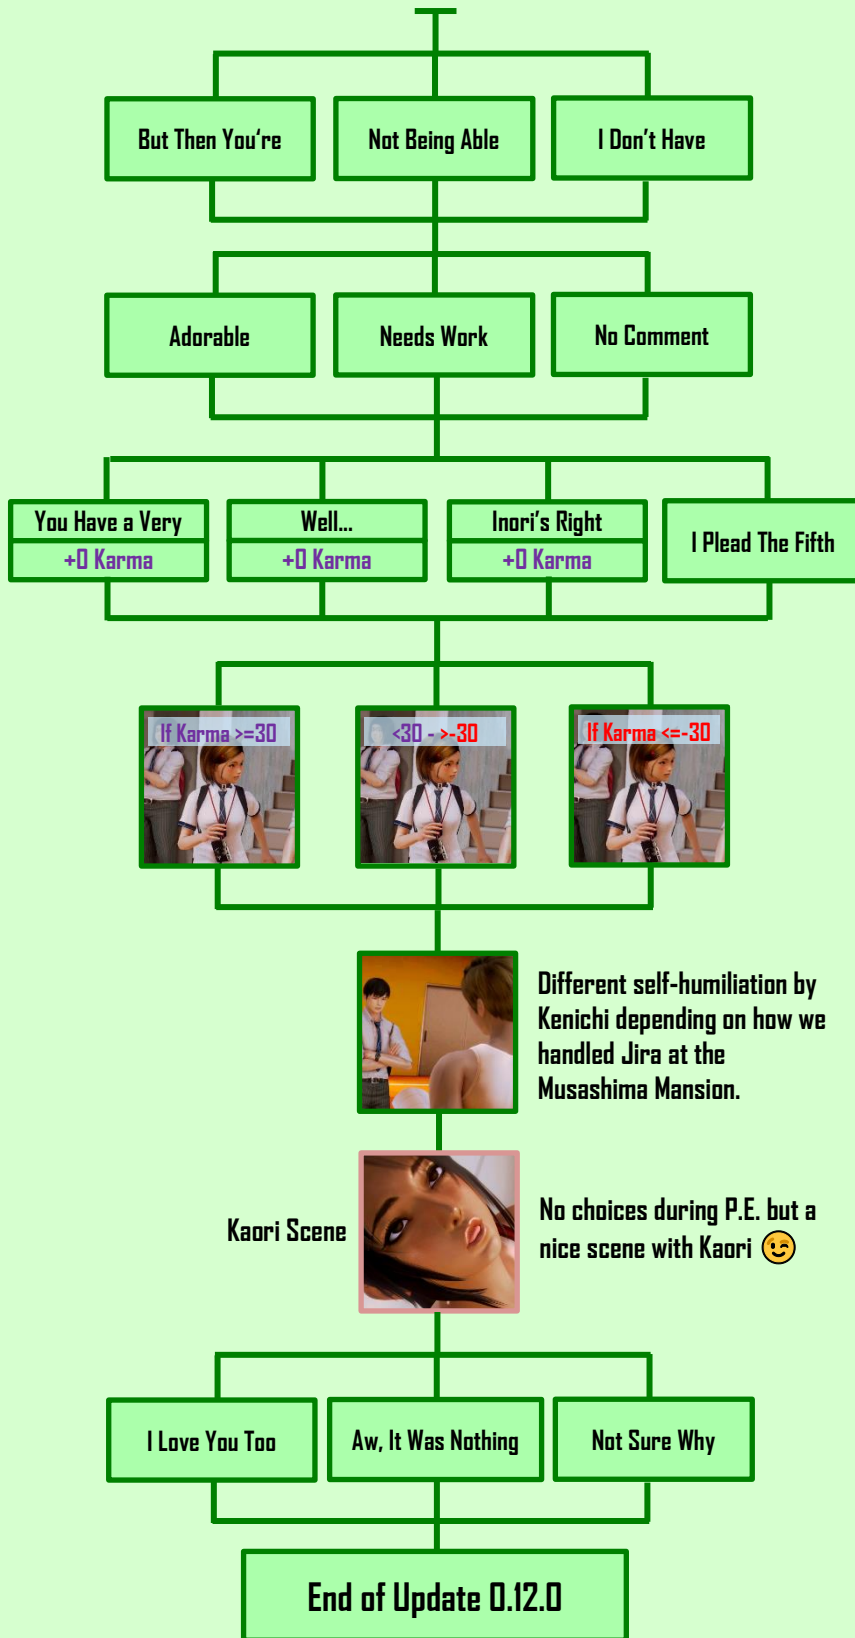

Depending on what we did to Yoko our responses will be slightly different.

Depending on our relationship with Asuka and with whom we played tennis the dialogue will be different.
