

*Demon
Lord*

*Demon
Lady*

I know this as he was the one to fall to **my** hand.

Well, if it isn't the human 'hero'.

Come to revel in my defeat?

Upon his defeat a secret agreement was formed in which the now deposed Demon Lord would live if he gave the humans his secrets.

A newly inaugerated Demon Lord invaded the human realm to enslave all of humanity.

Though I know the consequence of when my utility to those worms ends...

What are you attempting to do?! Has the time come?!

Or did you visit to voice your dissatisfaction to the deal I and your masters established, dog?

Bastard...
How could
you..?

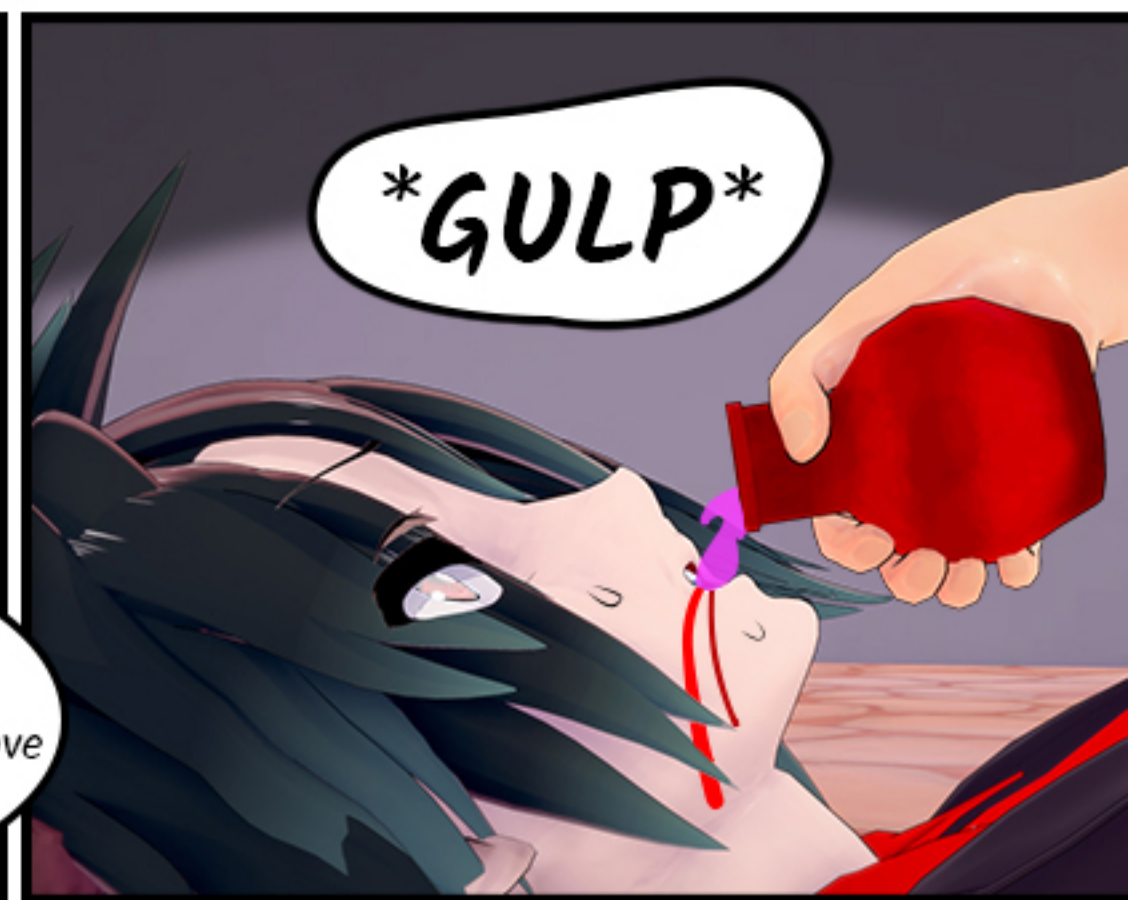

I'm
sorry Demon
Lord!

My remaining
subordinates
shall repay this
treachery... in
their rage.
COUGH

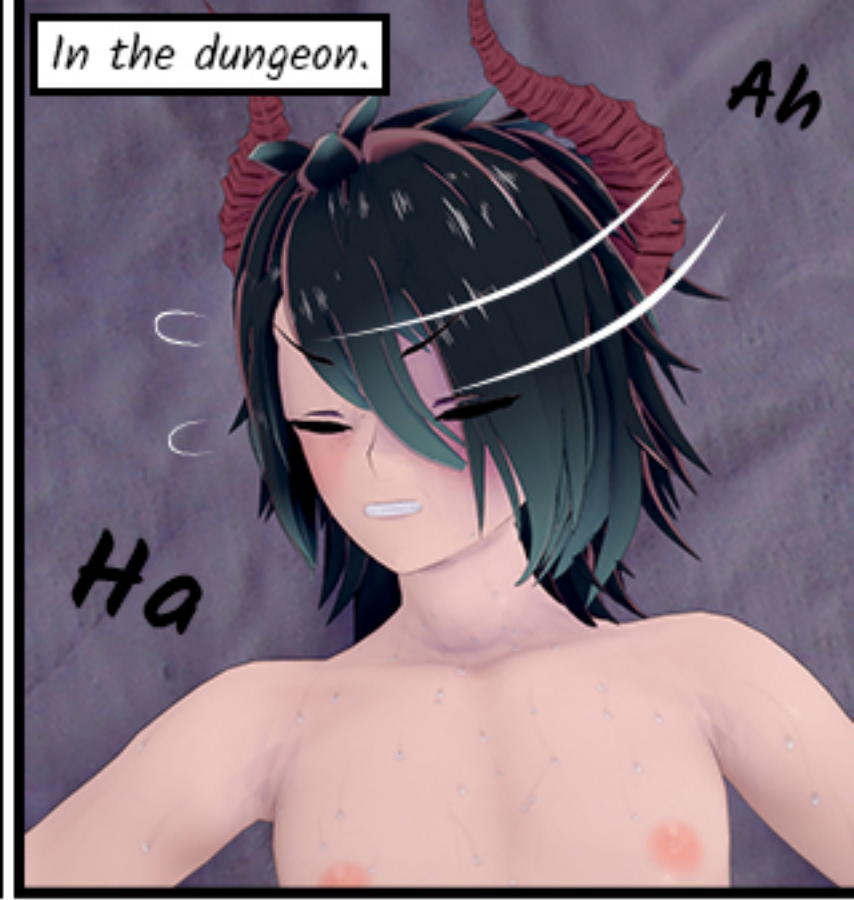

AH!

That
should keep him
breathing, the changes
should happen soon. I'll move
him to the dungeon
to observe.

GULP

Ahh...
zzz

He's survived.
Looks like my plan'll
be in danger of really
working.

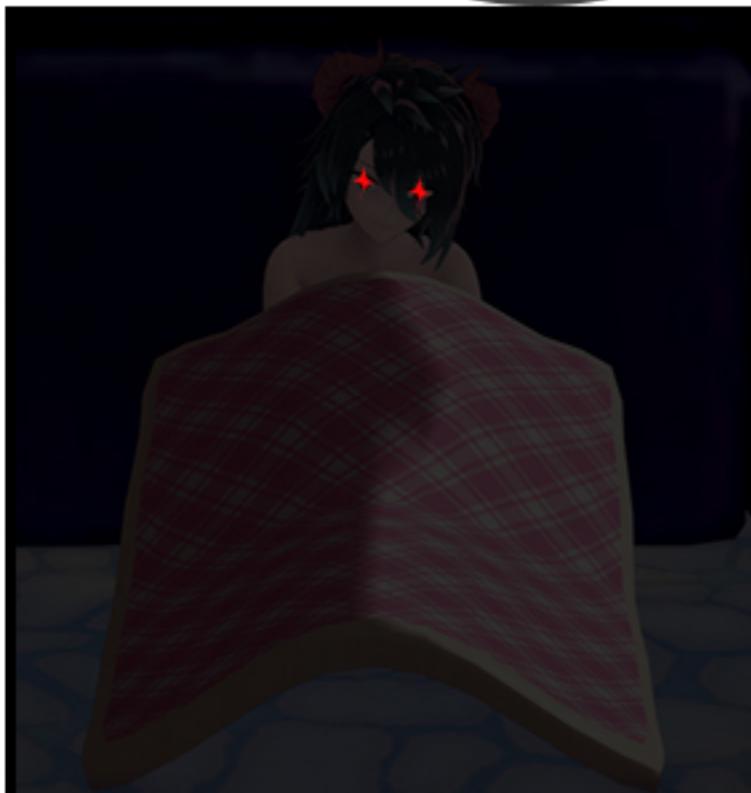

THROW

Several days later...

Demon Lord,
I brought dinner.
Same time, same
shlop.

BASTARD
WHAT HAVE YOU DONE
TO ME? I SHALL END YOU
FOR THIS INDIGNITY!

The Demon
Lord who could never
beat me in battle is
going to kill me?
Sure.

Thanks
to that potion I
gave you your powers are
sealed and your demonic
strength has gone.
You're weaker than
ever.

My form is
becoming more
feminine, I'm no
fool, that food... what
have you conspired
to do at your
master's
behest?

That isn't
all you plotted is
it you sneaky
little worm?!

it was love at first sight, but then I was deeply shocked...

No. This was my plan. The moment I laid eyes on you at the beginning of the invasion,

once I found out your were a guy.

No, no, see, you really do look like a woman.

Grrr...

Are you dense? You thought I was beautiful and mistook me for a woman because of that?

"The Demon Lord's usefulness is over, you must slay him. As humanity's hero the task rests with you."

If only they knew of the feelings that I had for you.

You were right about the food; there's all sorts of medicines that can change someone's body, even the mighty Demon Lord's. I'd made my mind up to make you mine when the Alliance approached me for one final job.

So I set out to save you.

"Save me?"

BARS DROP

You fool, I'm still a man! You are more idiotic than I predicted if you think I'd become a bride for you 'saving' my life, I'd rather die!

I knew you'd say that. You're hardly a man in body, but I'll make you my woman in mind.

What are you planning on doing?

You can take that misguided homosexuality and strike me down!

Hmng?!

It's in!
Should his tongue
be so delicious?

Kuh!
This bastard is
trying to force his
tongue in!

My own
tongue seeks his...
I'm a man, why am
I..?

wobble

wobble

I can
barely manage
to stand...
why?

grab

Whoa there!

grip

His tongue's wagging...

wag

Is this slutty face really the one of the 'Demon Lord'?

Silence?
There's no bigger compliment for a guy, it must've felt good. Hold on, I'm not done yet.

DROPI

kiss

lick

Can't... stand... this...

LIFT

Kiss

HNNgghh!

Did you know that your taste is like that of a woman 'Demon Lord'?

That medicine sure is something. You even came from me kissing you.

So my bride, you'll have to suffer me a little longer. Fancy a stroll into town? You could use the fresh air!

Mana..?

You can't leech mana from your environment anymore thanks to the potion, so you're completely reliant on me; a hero that has unending reserves of the stuff.

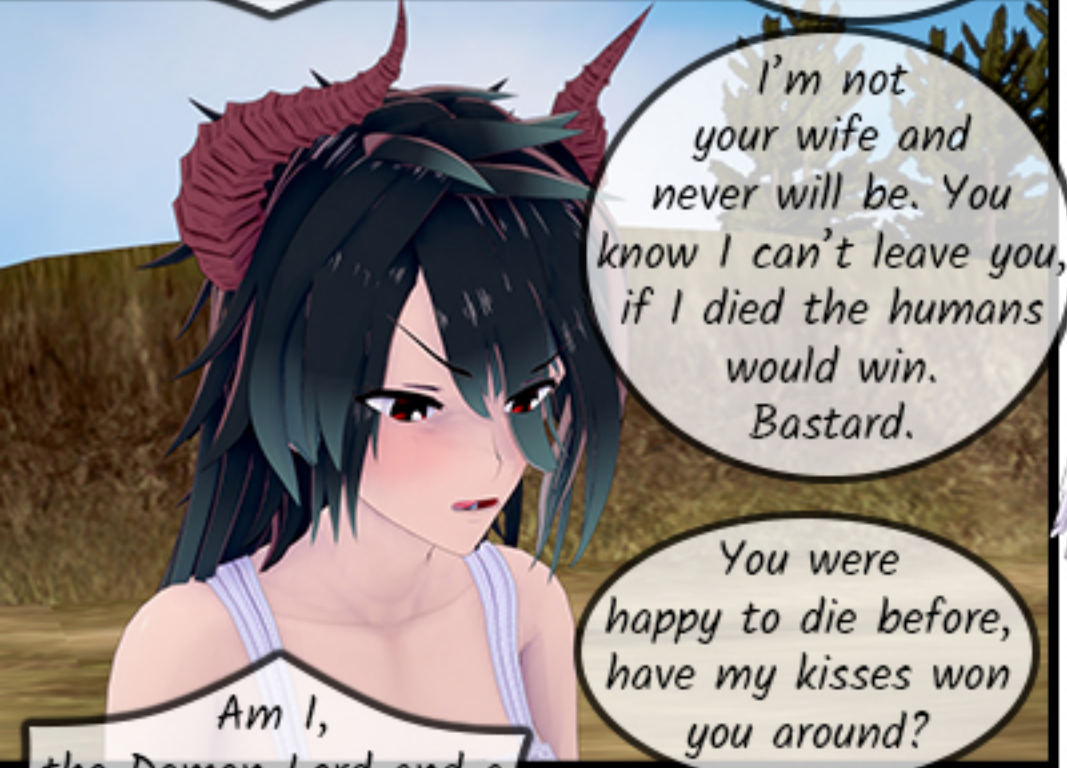

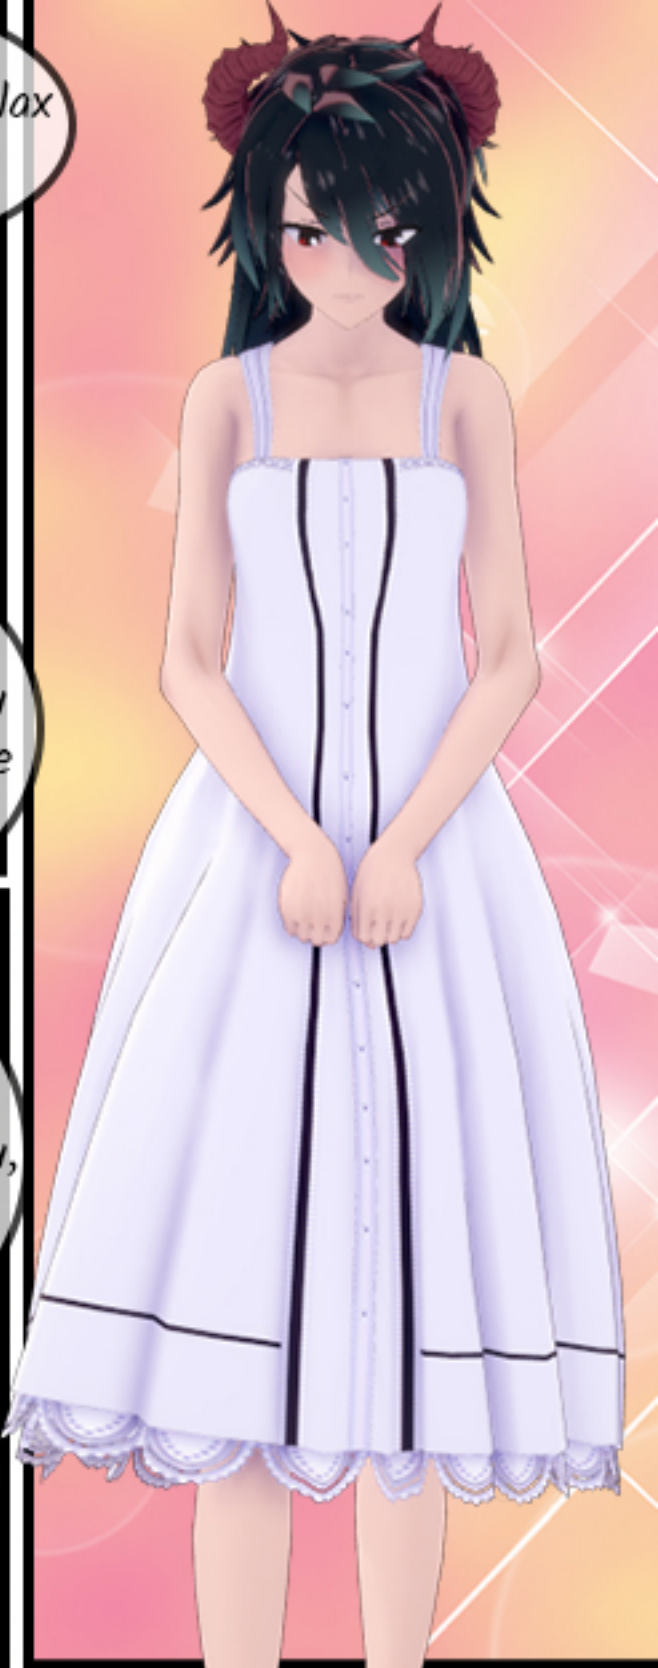

That's the mana transferral though.

In which sphere of existence would a man be happy to hear those words, from a captor at that?

Ah, you're mistaken. You can leave whenever you want, but why'd be cruel to your husband?

You were happy to die before, have my kisses won you around?

Am I, the Demon Lord and a man, happy with your kisses?! No!

Hurry on up
Demon Lord, we're
not far now.

What are
your intentions in
taking me to the local
town anyway?

I'm pretty
conspicuous...

I'm showing
off my new bride
of course. We have
food, drink and clothes
to purchase
too.

I knew
this dullard would
say something to that
effect. I do require
footwear... and male
clothing.

Better
stick close to
me, I hear that there
are some **fearsome**
monster girls
nearby.

Monster
girls? Some of my
subordinates remain?
I can potentially call upon
their fealty to find mana
and be rid of this
annoying 'hero'.

To be continued.
