

## Yuri University – v0.61 changelog

### **New content:**

- Violet and Sabrina scene 2 added.
  - 98 images, 22 animations.
  - Available after scene 1 and getting a certain level of experience. Either wait for them to text you or text them first (see “New features” below).
- RPG with BFF, Hannah and Scarlett scene 3 added.
  - 100 images.
  - Available in the living room on a Wednesday afternoon, after completing scene 2.
- 50 texting selfies added.
  - See below for details.

### **New features:**

- Texting system added.
  - A new “Message” button has been added to the phone screen. From there, you can choose who to text.
  - For the main characters there are two options: “Chat” and “Call back to room”.
    - “Chat” earns an affection point with the character, and a short conversation about what they’re up to.
    - If you have at least 20 voyeurism and they are somewhere other than the house or their class, you can request they send you a selfie. If you have a high enough relationship level with the character, there’s a chance of them sending a naughty pic.
    - “Call back to room” will move them from wherever they currently are to their bedroom – unless they’re in physics or art class.
  - You can only text people once per day.
  - Texting does not move time forward.
  - Currently only the five main characters and Violet & Sabrina are available to text.
- “Selfie Collection” added to the phone guide.
  - Use this to view selfies you’ve been sent through the texting system, and keep track of how many more you have to see.
  - Some selfies are only available when the person is alone. You may have to text the person they’re with and move them back to their room.

### **Tweaks and adjustments:**

- Added some alternate lines to Violet and Sabrina’s scene 1 telling them about your girlfriend, if you have more than one.
- New images and lines added for one-on-one interactions with main characters in the cafe and gym.
  - These occur when you use the texting system to ask one person from a pair back to their room – e.g. when Hannah and Scarlett are in the cafe and you ask Hannah back to her room, Scarlett will be in the cafe on her own.
- New images added for cafe location.
- Added 3 new images for posing for the art class on Fridays with Ezri.
- Adjusted some character schedules so they’re occasionally on their own in some locations.

### **Bug fixes:**

- Fixed an incorrect question being shown in the second art exam.
- Fixed the notification on the repeatable sex tutoring not taking skills into account.
- Fixed not being able to tell Violet and Sabrina that you have a girlfriend in scene 1 if you only have Hannah as your girlfriend.

**Known Issues:**

- When both Ashley and Ezri are in the cafe, you incorrectly have the option to just hang out with just Ashley as well as both of them.
