

## Walk-through to A Struggle With Sin 0.1.3

**General information:** I know that it's tempting to use Save-Edits on the game. Be aware that changing game variables, switches or items might break the game as many of them are connected. This will also lead to the skipping of scenes and dialogue. I try to keep grind at a minimum as I hate this stuff as much as most of you do. So when ever you have to repeat an action I try to add in new dialogue or images. If you stumble into money problems look at the [Tips and tricks](#) section at the end of the walk-through.

### Green = New content

2. Affection 3+: Talk to her about the topics. Beginning Interests to top. On „how she gets by“ Disagree with her. After talking about Origin you need to talk to Rick about Tia and tell him to get more information. (Talk to him Early morning at the bridge or at the inn during the evening)

#### NTR:

6. Watch her cut wood once per day, lose to the charging orc while Tia is at 4+ corruption.  
To revert: Every time you win against the orc this will **reduce** Tia's interest in them.

10. At 10 corruption she will give you a hand-job in the tavern if you try to make her drink love potion again.
11. If you had sex with her a few times in your room you can convince her (if she is at 10C and you at least at 3C) to have sex in her sleeping room

NTR:

7. **Frisha** (Mira's older sister)

1. Watch her talk to Dave on a Saturday
2. At 5pm (Saturday) you can stop her walk towards the dinner by running into her
  - There is currently no reward for completing this quest.

8. **Arianna** (Rick's younger sister)

1. Meet her at the Darkwood entrance after you completed the intro

## 9. Emily (Mira's/ Frisha's mother)

1. You can raise A with her by giving her rabbit meat (hunting)
2. After getting to 5+A and if 7 days after completing the intro have passed, (If old save 7 days from saveday) sleep at her place
3. Two bandits will attack, if you manage to kill both (attacking early) the quest won't start and you will only be tasked to find the camp
4. If Emily got captured you now have 7 days to either pay the ransom at the old oak or rescue her.
  1. Rescue her:
    - Walk into the darkwood and follow the foot-prints into the deep forest. Inspect the prints near the river, afterwards inspect the tree

- Back to Arenfield and talk to Tia
- On the other side go inside the shed and interrogate the bandit
- Now you have to search the forest for 3 runes, the locations are random so look around the other maps (entrance, hunting ground, bridge, hidden path, deep forest)
- Under the bed in the shed you can find a chest with gold

- There is a shortcut to the Old oak on this map

- after your Keystone is charged go back into the deep forest and inspect the foot-prints at the NW edge of the map
  - At the bandit camp you can now try to sneak towards the cave to rescue Emily, if the guards detect you the camp will be alarmed which will make it much harder to reach the cave (wait until the next day to set it back to normal). During the night (20h-6h) it is much easier because the guards aren't patrolling as much as during the day.
  - At the cave you have to kill the bandit (hard without a better armor or weapon, see John and Lucius) and get the keys from his body. Afterwards escape the camp without being detected
2. Pay ransom: To get more gold you can talk to Mira every day she will give you 20 silver. Place the gold under the old oak before the time is up
  5. After you paid the ransom/rescued Emily you can now sleep at her place without bringing her food. Bringing her rabbit meat will still increase her A towards you.
  6. At 10+A visit her room in the evening when she is dressing for bed.

NTR:

1. Fail her rescue quest

#### 10. Corven (At the desk of the Inn. Monday evening)

1. Buy him a drink
2. hunt a rabbit to get a hare paw
3. bring the paw to him, this will increase your hunting skill to 3 which will

increase your hunting yield

### 11. John (Smith)

1. Talk to him and he will sharpen your dagger for 20 silver

### 12. Additional:

- You can always visit Gwen and submit to her.
- If you lose to the orcs while hunting...
- Some girls can be uncovered while sleeping

### Tips and tricks:

Hunting: The hunting system is a placeholder for now until I come up with a better solution. To actually hit with the bow you need to first Take aim and then fire. If however you are detected and an enemy strikes you you will lose the focus buff. So when fighting orcs switch to your dagger. (skills)

### Money problems:

- After you completed Lucius quest line you can buy empty vials from him and sell potions to him for 20 silver each.
- You can steal wood from the inn and sell it to Lucius
- Killing orcs/bandits will often reward you with coin pouches which you can open in you inventory (20+ silver)
- After Corven's quest you can sell the fur you get from the rabbits

That's it, more to come in future versions.
