

## BRANDY PUNCH UP LYRICS

*(Brandy's the girl in the song, she's named Brandy)*

There's a lass in a harbor town  
Been an orphan since her parents ship went down  
Just a tomboy, never owned a gown  
A simple barmaid fetching rounds

But this picture perfect provincial port  
Is about to be entirely destroyed  
Army of monsters for legal reasons not called orcs  
Are searching for an heir of a dark lord

**A scary wizard says 'Brandy, we must fly girl' *(we must fly girl)***  
**Yes The CHOSEN one you must be *(you got powers girl)***  
**Let's go fulfill the ancient prophecy**  
***(this is the legend, the legend of Brandy)***

Brandy wears a braided chain  
Made of finest silver from the house of Gawain  
Funny she never read the inscription that contains  
The prophecy she must attain

The chain is the one thing that she still has  
From her very very normal human dad  
Who was definitely just some regular man  
And not the heir to the Throne of Sklan

**Her daddy said 'Brandy, your bloodline girl' *(your bloodline girl)***  
**Is as normal as could be *(that's no lie girl)***  
**But right now, just using your mind, set fire to that tree**  
***(this is the legend, the legend of Brandy)***

While they slipped out under stormy skies  
They met a burly dwarf and a wily rogue  
A mismatched pair, but actually cool guys,  
Helped her escape with a magic cloak *(they got magic)*  
Really bonded with a few more badass dudes who were working as hired guns  
Til they realized Brandy was the chosen one  
*(Brandy did stuff that some old books had pre! dic! ted!)*

Flash forward a couple years, Brandy's the sorcerer queen  
Kingdom's safe, evil's gone to sleep  
Playful rogue on her arm as she walks the keep  
But then the wizard's ghost appears

**She hears him say "Brandy, one more time girl" *(one more time girl)***  
**Sorry bout these evil portents I bring *(saw a sign girl)***  
**But your dad's been raised from the dead as a zombie king, yes he's undead**  
***(Brandy's old man he came back, oh no Brandy)***  
**She hears him say "Brandy, one more time girl" *(one more time girl)***  
**The perfect thing for our legacy *(sequel time girl)***  
**Would be running all this back in another trilogy**  
***(goes on forever, the legend of Brandy)***
