\* For the released mods, you can unlock and download them on my Patreon site

<https://www.patreon.com/xyth24>

\*\* For mods that are not released yet. Those are not for sale. But if you really want them, you can donate as what the crowdfunding participants did, and get early access of **one** specific character by:

a) joining **Warlord** tier on Patreon and tell me via Patreon's private message for the early access of **one** specific character

b) or Paypal USD \$51 to the following address, and send me an email to the same address for the one character you want:

The release queue is too long. This is just to reserve some time period for crowdfunding participants. If you think it's too high, please have some patience and wait for the release. Thank you for your understandings.
