

Wow wow wow wow wow wow wow
Wow wow wow wow wow wow wow

If you look up at the stars and think about our galaxy
Where **God** has placed us on this globe
If you meditate a moment **on** the spinning firmament
We're **wrong** about what we **know**
Stars up in the sky, clearly to my eyes
It seems no two alike
Keep it in the abbey, vow of silence don't be blabby
Excommunication's on the line

You're thinking, I'm thinking maybe
My dubbelboo, we are rotating
Around the sun, we're renegading
Yah, yah, yah, amen

It's true / moonlight
Is reflected starlight
It gives me a fright
The church will banish me
Our earths rotating

REPEAT

I believe in what we've seen despite Genesis 1:16
His holiness can never know
We'd invite the inquisition, I prefer my head's position
On my neck and not a pole
The **earth** around the sun, we **surely** would be shunned
For this discovery
hide a secret in a jar, **bury** it somewhere afar
It's **simply** heresy

You're thinking, I'm thinking maybe
My dubbelboo, we are rotating
Around the sun, we're renegading
Yah, yah, yah, amen

It's true / moonlight
Is reflected / starlight
It gives me / a fright
The church will banish me
We are rotating

REPEAT

Will you go out with me in the night
Will you go out with me in the night
I can't take my eyes off of the sky
Yeah yeah yeah amen
The earth's rotating
Yeah yeah yeah amen

All my **worldly** possessions I have cast off
Nothing to weigh me **down** dance my ass off
If the **abbey** kegs are pouring then I stop
Yeah Yeah Yeah amen
