

CHAPTER 5

You dirty girl...

Mmmmmm...

Pinch.
Harder!

I lied that first day when I saw him. I do think it's funny Mr. Tough Guy has such big tits now, and I love to play with them! Stone loves it, too. He's always begging me to pinch his nipples.

He sounds like a gerbil when I play with his clit—making these little chirping noises. **His clit.** It just—I don't know why, but it drives me nuts playing with HIS clit.

I love watching his pretty face when he's about to climax. It's **Stone** in there, all woman, about to feel something only a woman feels, and he's a pretty girl and he's in throes of ecstasy, every inch of that soft little body humming...

Yes... **YES**...

Omigod..

YES

I'd like that.

I want you to come home with me.

And just like that, I, Stone Cameron, head back to the real world, a very changed man—in body. But, I've said it before, my body doesn't change me. I am Stone Cameron, and I always will be. It really is what's inside that makes the man.

I saw the potential for Stone's discovery right away. Not only would it be a boon for trans people everywhere, but an agent that could transform a middle-aged man into a young woman very well might have applications to regenerate organs, reverse aging. The possibilities were endless—and very lucrative. It took me no time to find investors, and Stone found himself one of the richest and most famous **women** in the galaxy.

It took some nudging, but he eventually accepted that to succeed as a woman in the business world, he needed to "adapt and survive." It was cute. It took a little time, but he learned to do his own hair.

And he practiced doing his makeup, studying what he liked the call the "hard science of cosmetics." It made him feel better to use macho terms for girly things. Bottom line, he could put on his "warpaint" as well as any girl.

It wasn't easy for a man like Stone to learn to be a woman in the so-called civilized world. It's one thing in the jungle. Snakes don't care if your nails are on point.

But in the world, for a man like Stone who wanted to win every competition, it was all or nothing, and I have to give him credit for facing the challenge head on and doing what he had to do to win at female.

There was *one* challenge that nearly knocked him on his ass, and I do mean literally!

A woman with long brown hair, wearing a light blue and white striped button-down shirt, a black pencil skirt, and white high-heeled sandals, stands in a futuristic office. She has her arms outstretched and a surprised expression. The office is filled with advanced technology, including glowing blue lights, holographic displays, and sleek furniture. The background shows a large, open-plan office space with more desks and chairs, all illuminated with a cool blue light.

he got over it.

Stone, you're getting so good in your heels!

Thanks!

He's so proud of himself now for his skill with makeup, heels and hair. It's adorable!

Stone Cameron certainly has blossomed into quite the impressive young lady! I'm really proud of him.

My God! He never misses a chance to show off those tits.

And he's proud of the woman he's become, too. He can't stop bragging about it. He always was full of himself!

Epilogue

I've changed so much! One thing that hasn't changed? I still love to show off me chest! It looks a little different now!

He's still part of me. He always will be, but I am a woman now. A proud woman.

I used to be proud of how **big and strong** I was!

If you had told me one day I would be just as proud to have pretty, little feminine arms? I would have laughed.

Do I ever miss being a man?

Hmmmnn?

No. No, I don't.

Not since I fell in love!
