

HOLLYWOOD LOVESONG - CAPO 2

Do you remember when you were in love with another E A
'Cause I don't remember anyone other than you B7 E
Do you pretend to have known at the moment like I do E A
'Cause I can't imagine anything better than you B7 E

Pick me up after my shift at the diner Am
And walk me through Chinatown E
I know a bar hosting bad karaoke Am
And I wanna shut 'em down E
I know my way around B7

And they say you wait A B7
Nothing's forever and love doesn't matter E E7
It's long nights alongside A B7
Someone you knew but that's not me and you E E7
And I watch you walk closer to me A B7
The shot's wide in blue light and high tide A Am
It's just like the movies E E7
The shot's wide in blue light and high tide A Am
It's just like the movies E

Do you remember when we weren't together like I do E A
Foolish and wandering, wanting for someone like you B7 E
Do you think when did the room get so empty but us two E A
'Cause I don't see anyone, anyone other than you B7 E

Pick me up after the night shift is over Am
I bought seven dollar wine E
We'll play some Mathis, King Cole and Sinatra Am
And dance like we're getting by E
I'm saving every dime B7
