

## Commission – The Technique

MC works in an office, quite boring work and very mundane. "I want excitement, I'm 20 years old for fucks sake." She looks online for some ways to spice her life up when she sees an interesting post about "changing your life forever." Clicking the link takes her through to a meditation site, she rolls her eyes but notices something in the reviews. They all talk about a vivid sex life and how it's really changed pleasure for them. She purchases an online session and the book. She takes part in guided meditation; they just teach the techniques and recommend that you meditate every few days. 2 weeks later she is starting to feel hornier, she is shy, so she just masturbates more often to relieve the tension. At the 6 weeks mark she has already bought some toys to help relieve her rising lust. Still deeply embarrassed and shy she goes into the stall at work and notices for the first time that her vagina looks... puffy? She continues to meditate, not even linking the two events. At the 12 weeks mark her pussy has grown substantially, she has to really try to hide its bulge in her clothes. A new intern keeps staring at her, she thinks he must've seen. Horniness getting the better of her she decides to talk to him whilst on a lunch break. She is turned on, but she struggles to hide it, incredibly shy at the wetness in her plump pussy she rushes out of the room. 16 weeks she can no longer hide her distended and bloated pussy. It bulges obscenely in anything she wears. Thankfully, she has been able to work from home for the past 2 weeks. She hears a knock on her door, and it is the intern. He brought flowers and chocolate to see if she is ok. He notices her growth, wider hips, bigger tits and her huge pussy. She wraps her arms around him, and they start to make out and have unprotected sex. They've been going steady for a few months, regular sex, still she expands, still meditating regularly, she bought more because she has liked how her sex life has increased. She notices that a new growth is appearing, her tummy bulges now. She is pregnant. She decides to stop meditating but still her growth is still ongoing, she is subconsciously still using the techniques to grow, in the space of 3 months she looks 7-8 months pregnant and the rest of her is a lot bigger. Time skips to her 8-month check-up, and she is hugely pregnant, massively curvy, her pussy so massive that she can't hide it at all and for fear of being exposed in public she remains housebound. Before the doctor arrives, they have sex and explore each other's body, she is much more lewd and vulgar now that she is a shut in and she takes enjoyment in her still expanding form, she has started to meditate once more. She wants to get bigger.
