

Little Shop of Monsters

Theo wanted a pet, he didn't know why he went looking on Halloween, but he had free time. He finds a shop that will change his life forever, if he survives the taming process.

-x-

Theo has brown hair and green eyes, he keeps it short and styled up. His fit body honed by sports, he was on both the swim team and the basketball team. He was tall, fit, and while mature had his body hair shaved. Blame it on the swimmer superstition, but his legs, pits, and pubes were all shaved. Not to mention he had a speedo tan line, the rest of his body was bronze but he was creamy over his ass and crotch.

All he wanted was a pet, he begged and pleaded with his parents to get one but no luck. Then by some miracle his dad said yes, on Halloween. Not the day known for miracles but hell Theo would take it.

He raced out to find a pet shop but everyone he went to was closed. "Oh man, oh come on!" he kept on running till he came across a shop. He didn't know why he stopped, but he'd swear he heard a growl when he passed by the store.

Looking up at the sign. "Little Shop of Monsters? Is this a joke?" he saw it was open. "Well it looks like a pet shop, this might be my only chance."

A pet is a big responsibility. His parents told him that over and over it was burned in his head. He was willing to do anything to have a pet.

He went inside. "Hello?"

A loud roar came from the back and slammed the door behind him.

"Ahh welcome," the shop keeper came out from the back. "Welcome to Little Shop of Monsters." The shop keeper was an odd one, he was tall with brown hair, it was long tied back in a braid. He wore large glasses that framed his face well.

"Uh, hello this is a pet shop right?" there were cages all over the room but they were empty except for signs hanging from them.

"Indeed, we offer monsters for pets. Would you like a pet monster young man."

Theo laughed. "Yeah sure a pet monster right, I've always wanted a pet werewolf." he was joking, but the shop keeper smiled.

"A werewolf very well sir."

"Ehh?" the shop keeper handed him a card.

"Your werewolf will be waiting for you at your home, please follow the instructions. They can be very difficult to train but they are loyal to their masters to a fault." He handed a pamphlet.

Theo looked at the pamphlet. 'How to Tame Your werewolf, warning do not free werewolf till after he is tamed? What the heck is this?'

The shop keeper smiled. "The warning is real, do be careful."

"Yeah, right, you are making fun of me. I'm out of here." he left the shop, realizing he still had the card and the pamphlet. He was gonna turn around and throw them back at him, but when he turned the shop was gone.

“What the heck?!”

He looked down the card only had a name. “Fang-Fang”

Walking home, he let out a sigh, feeling tonight was a bust. His parents were out, a big Halloween party. They'd be gone all night. “Maybe I can order a pet online.” he smiled and removed his shoes and socks and went up to his room.

Throwing open the door he froze dead in his tracks. “WHAT THE HELL!?” he shouted.

There in his bed, was a naked man! He was blindfolded, arms chained above his head, a black collar around his neck, and his ankles were shackled and chained. He was a tan god of a being, not an ounce of fat could be seen on this beauty of a man.

Theo was gay, he couldn't help but examine the beauty before him. Big feet, long strong legs; they looked like a runner's legs. Between his legs was a mighty cock, at least 9 inches long and incredibly thick. His balls were also huge, Theo was no slouch in the cock department at 7 inches but he was nowhere as thick as this sexy beast of a man, and his balls were nowhere near as big.

Fun Fact: Monsters have enlarged genitals, as their bodies can handle the strain, they can produce more cum than an average human and have longer orgasms to boot. Last thing monsters do not produce waist, their man holes are purely for mating. Their bodies dissolve food completely and they require only 3 hours of sleep a night.

Theo's eyes wondered up, he had no man bush instead he had a symbol...no a tattoo of a claw over his crotch. He had rock hard abs, big beefy pecs and strong arms. His nails and hair were pure black. He had a strong chin and he was handsome, even if he couldn't see his eyes.

“Hey...you okay...” his ears perked up. Theo took a step forward and the man in the bed growled. Another step and the man bared his teeth, growling showing off his pearly whites and his canines.

A tremor of fear raced through him. 'No way this guy...it couldn't be...' he looked at the card again. “Fang-Fang?”

The male stopped growling and relaxed. 'No freaking way!' he blushed, he was hard. Hard not to be with such a sexy man in his bed. He grabbed the pamphlet.

It read: Hello congrats on your new werewolf. Werewolves are very territorial creatures, which make them very loyal to their masters but a werewolf without a master can be a very dangerous thing. They will claim space as their territory and kill anyone who invades it.

'Holy fuck is this guy gonna kill me.' he read more.

You must name yourself as his master, follow these easy steps and you to may tame your werewolf.

Step 1: State your name and state that you are his master and make sure you use their name.

'Am I really doing this?' he gulped, he was hard and he had a sexy dude in his bed. “My name is Theo, Fang-Fang I am your master!” the male twitched but didn't speak. Theo looked back to the pamphlet.

If you did this step correctly you may now approach your werewolf.

Theo stepped forward and Fang didn't growl. His body seemed alert but he wasn't growling.

Step 2 Remove your clothes...

'What?!'

...werewolves have powerful senses of smell, you need to be bare on equal footing so he can see you properly.

With a blush Theo began to strip. His red jacket hit the floor, and off went his white shirt. He revealed his own fit tan body., his nipples were already perky, his smooth pits releasing his natural musk.

He removed his socks and the werewolf took a deep whiff. He dropped his pants and underwear revealing his hard 7 inch dick and his tan lines. 'I'm naked and alone with a guy chained up in my bed.' his penis throbbed at the thought.

Turning back to the pamphlet. If you have done this step you may now touch your werewolf, but do not remove his chains or blindfold.

Theo gulped, licking his lips, his fingers itched to touch the Adonis. He went to his bed and the werewolf seemed to relax. Touching his fine pecs, it was Theo who shivered. 'He's so warm.'

His hand traveled, feeling up his abs. His left caressed his abs, while his right ventured across his chest to pinch a perky nipple.

Fang growled, but it was different. Breathily, lustful, it made his own penis twitch. 'Oh man this is so crazy hot.' feeling bold he pinched the nipple again and earned another growl.

The werewolf's cock began to rise, Theo gasped seeing it fully erect. It pulsed gaining an additional length and plenty of girth. It pulsed like a mighty beast, it was rather intimidating but also alluring in it's own way.

Theo's hand went for it, brushing over the tattoo. Fang growled and bucked his hips. His hand gripped his manhood, feeling the heat and weight of it. It pulsed in his hand, and Theo stroked him.

The werewolf wiggled on the bed and something came free. Theo's eyes widened. 'Holy crap, he has a tail!' it was black, and fluffy like a wolf. Theo jumped back. 'This is real, he's really a werewolf!'

Turning back to the pamphlet.

Step 3 No doubt your werewolf has become aroused by your touches, make sure you feel him up proper, leave no stone unturned, but stop once they start leaking.

Theo blushed. 'Ok let's do this!'

"Arms!" he caressed his well built arms, feeling the muscles twitch, it looked like he could bench press a person. He ran his fingers through his palms, before sliding back down.

"Shoulders!" he rubbed his shoulders, feeling the strength behind them. Moving further down he ran his fingers along his smooth pits. The werewolf wiggled, enjoying his touch.

"Pecs and Abs!" he felt up those muscles again. 'Damn they are so sexy!'

"Cock and Balls!" one hand caressed his dick, the other fondled his hefty balls. 'So big!'

"Legs!" he ran his hands down his legs. The chains rattled as the werewolf wiggled in pleasure.

"Feet!" he rubbed the big feet, his fingers rubbing the skin, while his thumbs rubbed against the soles. The werewolf growled, his tongue slipping from his mouth.

He pet his tail and the werewolf began leaking pre. He stopped touching him and went back to the pamphlet.

Step 4 : Now that you have him nice and horny, the next step is up to you. Werewolves need to be horny, they release pheromones and seek out pheromones.

This is necessary for the final step. Each master is different, for dominant masters offer him your dick, slap his face a bit make sure he gets a good whiff, after you cum, splatter his face and let him get a taste. Last but not least use your feet to get him off, when that is done move on to step 5. for submissive masters, use the 69 position to offer your ass to him while you worship his cock, taste his pre and drink his seed, play with your ass a bit so he can get a good whiff. Last but not least lick his pits this will show your submissive nature, once his pits are clean you can move on to step 5. For the rare switcher types it is very tricky werewolves need decisive masters, put your feet in his face and let him sniff and clean them with his tongue, after that jerk off and smear your cum over his pits and crotch, then suck his cock and get him off but don't swallow finish things off by kissing him and making him drink his own cum, after that move on to step 5.

Theo had never thought about what position he'd take. He liked guys sure but he was still a virgin. Still...after seeing this man's big huge cock, he'd be a liar if he didn't want to feel it inside. His insides felt hot, his man hole twitching.

So he decided, he'd be a submissive master, his sexy werewolf can fuck him all he wants. His penis twitched happily at the thought.

He crawled on top of the werewolf and stuck his ass in front of his blindfolded face. 'This is a little embarrassing,' he turned to look back at the massive cock. 'So huge.' he leaned forward and began to lick his shaft.

Fang growled and began to sniff him. His nose brushing his taint he growled as he took whiffs of his master.

Theo could feel it, it was embarrassing especially how into it he was. Still his own desire couldn't be ignored as his hard cock rubbed against his pecs.

He was to taste his pre, so he moved up the large shaft. It smelled of manliness, a rich scent that made his dick weep and his body ache. His pucker spasmed and the werewolf took another whiff.

Getting his first taste, he ran his tongue over the head and the pre sparked on his tongue. His eyes widened and he quickly wrapped his lips around the head. He sucked on the fat head, while his tongue viciously lapped at the head. 'Taste's so good!'

He stroked his shaft while sucking hard on his head. The werewolf growled and continued to sniff at the submissive that was before him, he started panting, his hot breath ghosting over his balls and his hole.

Theo felt it and it made his hips shake. 'This guy is a total animal!' he kept sucking. 'But still I...I...I'm so turned on!'

He took more of his cock into his mouth and began to suck on it. One hand pumped his shaft, what he couldn't fit in his mouth, while the other man handled his balls.

His pet seemed to like that as he bucked his hips. More of the thick rod filled his mouth. He wanted to cum, but for some reason he knew he shouldn't, not yet, he would cum soon but not by his own hand by by his pet's.

He drank his pre and it seemed to warm his belly. He stroked faster hoping to coax more out of him, his tongue doing circles around the fat head.

Theo's actions were doing wonders for the werewolf, he wanted to taste the submissive. His tongue slipped out and despite it's length he couldn't truly taste the boy, at best he was able brush against his skin.

He took this as action time so he reached back and began fingering his hole, he was so horny he took one finger easily. The werewolf growled, smelling the purity. He shifted causing Theo's dick to rub against his pecs.

Theo moaned, the noise sending pleasing vibrations. The werewolf gave a howl as he came, thick seed flooded Theo's mouth. 'So much!' he did his best and drank as much as he could.

The seed filled his belly, Fang could smell it. In his mouth, his throat and in his body. He licked his lips in anticipation.

Theo was still hard, he somehow managed not to cum but he was leaking a lot. He turned around. 'Have to finish this, I'm so excited I feel like I'm going to burst any second.'

He went to the right pit, his pet's manly aroma was there to, it made Theo tingly all over. He lapped at the sweat, tasting his pet in another way. Every lick seemed to spark more hunger.

After finishing the right he moved to the left. He cleaned both pits, he couldn't help but nuzzle the left the smell comforting him. 'Oh right the final step.'

Step 5 This is the last step, if you have done everything correctly, remove the blindfold if he calls you master you are all good. If he asks who you are run for the hills cause he will kill you.

'Ehh kill me?' he was nervous and began to sweat. Still he found himself wanting to see the male's eyes. He removed the blind fold. 'Here goes nothing.'

Beautiful purple eyes opened up. 'Wow!'

The werewolf smirked. "Master!" his body pulsed. He eyed his new master taking in every inch of him. His tall chiseled body, his sexy tan lines, and his hard throbbing cock.

The human form pulsed and before Theo's eyes he turned a sexy beast, black fur covering his body. His body grew larger and the chains broke off him. Even his cock grew larger jumping up to 13 inches, 14 if you count the knot.

Furry arms grabbed his master and lifted him up. Theo gasped as he was picked up so easily. He was sat on his face and the werewolf began lapping at his hole. "Oh fuck, ohh ohhh ohhhhhhhh!" his long tongue penetrated his hole.

Theo's dick twitched. "Gonna cum!" he cried out. The tongue fucking was brutal, pleasurable but relentless. He wiggled his tongue and kissed his hole. "Ohh Fang-Fang!"

He was lifted up. "Please master call me Fang."

"Fang! Please don't stop!" Fang obeyed and went back to rimming his new master. "Fuck...fuck...fuck...!" padded hands took hold of his cock.

Theo lost it, the pads of his palm felt amazing on his rod. He arched his back and came. Hot seed sprayed out, the hand pushed him back so Theo came all over himself.

The boy panted like crazy, having a super intense orgasm. He soon found himself on his back. The hulking werewolf towering over him. His legs were forced open. "Whoa easy big guy!" he says.

To his shock the werewolf stopped. He sat back, his tail wagging, and his penis throbbing. "You actually listened to me?"

"Of course, you are my master." he showed off his neck proudly and to Theo's surprise his name was on the collar. "I am yours to command."

"Clean me," he points to his cum covered body. The werewolf growled, though it sounded like a rumbling purr.

“Gladly master.” he began to lick his body. His tongue swiping over his flesh, tasting his cum. His thumbs rubbed his tan lines, rubbing the lighter skin.

Theo shivered. He laced his fingers through his dark mane. 'So soft, ohhh!' he groaned as his tongue brushed his perky nipple. His cock was hard again. The feel of fur against his skin was so erotic. Not to mention the large hot cock resting against his leg.

“Fang so good,” he ran his hands across his back. The words sent a spark through the werewolf. He scratched his back, the werewolf bucked his fur tickling him.

Those hands moved up to his head and felt his furry ears. The werewolf growled happily, his master was good. Touching him in the ways that made him feel so good. “Good boy, so good my pet!”

Fang sucked on one of his nipples. Theo's moans music to his ears. His master loved his affection, and he loved to please.

The boy's body was clean so Fang moved up to lick his neck. Their hard cocks rubbed together, and poor Theo kept bucking and moaning, wanting to feel everything. “Master feel good?”

“So...good...” he moaned.

“What do you want master, command me and I will obey.” he licked the boy's cheek.

“Fuck me, but please be gentle I've never done this before.” his whole body was tingly.

“It is an honor master.” Theo was rolled over so he could be on his hands and knees. “This position will cause you the least pain.”

He lined up his massive cock. The tip poked his hole, and Theo moaned. “So hot!” the cock pushed in slowly, the initial breach hurt but slowly as friction grew pleasure spread. Fang lapped at his back, kissing and licking his shoulders to help ease his pain.

Fang kept his word, going easy on Theo. He kept things slow, stopping and letting things adjust. He waited for the boy's inner muscles to relax before pushing more of his fat cock inside.

Theo was drooling about 10 inches in. The last three got forced in by Theo as he bucked back. “So big, good boy, feels so good!”

“Your ass is amazing master.” he began to move, his knot smacking his hole. The knot would have to come later, not for a virgin. Still just the feel of the knot smacking his pucker felt amazing.

Theo panted and groaned, taking every thrust from his pet. “Faster, please!”

Fang obeyed quickening his pace and the two cried out in pleasure. “Yes master!”

He covered his master's body with his own and humped him harder. “Ohh Fang!”

“Oh master!”

Theo's cock bounced with every thrust, his pets huge furry balls kept smacking into his smooth ones. The ripples of pleasure that came from each thrust, hit him on two fronts.

“Ah ah ah ah ah ah ah!”

“Grrrrrrrr,” he nuzzled his master's hair.

“I'm gonna cum!”

“Me to, master!”

“Fang!” Theo came, shooting his load all over the bed. His inner walls clenched on the hot cock, the huge rod got thicker and hotter. Hot semen poured deep into his body filling him up. 'This sensation amazing!'

Fang reverted back to human form, his cock stayed lodged inside him. “Shall I pull out master?”

“Nah stay inside, it feels good.” he shivered. His pet pulled him close. Theo shivered feeling his hard muscles press into him. Fang smiled and licked his cheek. The two cuddled and went to sleep.

The two had a unique future ahead of them. Outside the shopkeeper smiled. 'Fang has a good home now.' Little did Theo know all across the town monster pets were everywhere . Having a pet monster became the biggest thing.

Every Halloween people looked for the mysterious shop of monsters. Not to take it down, but to get one of their own.

End
