

Dr. Knome,
Prototype: Putty-XL - MODEL VER. 2.5 - Prepped.
Physical durability chamber - Prepped.

Synthesized Pheromone
level remains at 3, until a
higher tolerance is
developed.

I must again advise
limiting chamber settings from
3 hours to the recommended
45 minutes.

NOTED AND DENIED.

Your physical output already pears
with Olympic level athletes, Doctor.
Surely the excess time could be put
towards current projects.

OH, DON'T BE SUCH
AN OLD HEN, H.A.T.H.O.R. GIVE ME THIS
ONE INDULGENCE. BESIDES, 3 HOURS IS OUR
SOLDIER BOY'S RECORD FOR POWERED

As you wish, Doctor.

RABIES AND
OTAKUBUCKY

Congratulations, Dr. Knome. You've broken your personal record of 3Hrs. Shall I tally this to your digital trophies?

PHEW! CERTAINLY BOSS LEVEL DICK, BUT A FAR CRY FROM OP. IN THE PARAMETERS OF CREATING A SUPERHUMAN, ADMITTEDLY, I MAY BE THE WEAK LINK.

There is always the direct approach.

NOT THIS SEASON, HATH. INSTEAD, WE SHALL CHANGE THE VARIABLE!

I'll alert one of the Valkyrie. Thora tends to be most agreeable with experimentation

NOPE!

RAISING THE SYNTHESIZED PHEROMONE OUTPUT LEVEL TO 5 SHOULD SUFFICE!

In service to safe laboratory practices, allow me to remind you further increase may:

- Raise libido to uncharted levels.
- Reduce cognitive abilities.
- Reduce inhibitions.
- Greatly raise agreeableness.
- Unlocking [BLACK CHERRY] mode.

I CAN'T WAIT TO FIELD TEST THIS GUY.

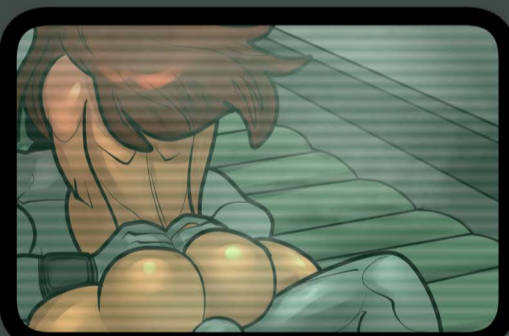

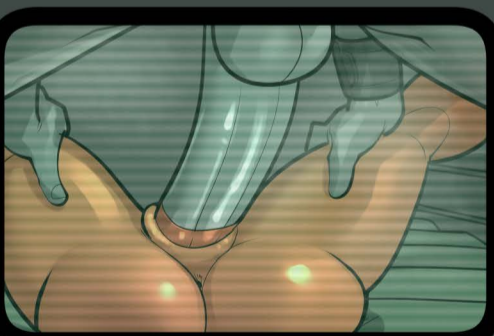

Congratulations, Doctor! Shall I tally "Ultimate Sex Automaton" to your list of digital trophies?

HA-HA! I'M BRILLIANT! SUCK IT HANNIBA-- WAIT... WHY SEX AUTOMATON?

The 2.8 PUTTY XL is proficient in sexual tasks only. Complex physical and cognitive capabilities remain comparable to that of his predecessor models.

SO...YOU'RE TELLING ME IT CAN ONLY FUCK?

Exceedingly well, I am inclined to add.

OH, YOU MALIGNANT MACHINE...

I exist to serve, Doctor...shall I prep 2.8 for bedroom use? We've just received fabrics for L.A.B. security garb in the mail.

Excellent choice, Doctor.
