

## New Quest's Added in version 3.15

### Quest 153: The Milk Maid

Activation requirements: Must have completed quest **148 "A Bigger Barn"** and Annabelle must have given birth to her first child.

Location: The Family Farm

When the player speaks to Julia, she will ask the player to help her milk Annabelle and shows the player how to make cheese. From now on you can milk Annabelle once per day. If the player milks Annabelle while Julia is pregnant, Julia will appear in the barn after the MC has finished milking Annabelle and asks to be milked. This will also unlock a blowjob scene for both Julia and Annabelle. From then on you can ask to milk both girls once per day.

### Quest 154: The Salesman

Activation requirements: Must have started quest **153 "The Milk Maid"**.

Location: The Family Farm

After Julia has shown you how to milk and make cheese, she will ask you to find a buyer for your cheese. Speak to Jenny, she will agree to buy 10 wheels of cheese at a time. Once you have produced at least 10 cheeses, pick them up from the table and deliver them to Jenny. If you haven't yet completed quest **99 "A Loan?"**, Jenny will buy the cheese for 120 coins. Once you have completed quest **99 "A Loan?"**, you have the option to haggle/negotiate. Jenny will have sex with you if you drop the price to 60 coins. If the player returns on his next delivery with a **Potion of Phallus Giganticus**, you can unlock a second sex scene by dropping the price to 30 Coins.

### Milking and Cheese Production

After starting quest **153 "The Milk Maid"** Julia will milk Annabelle once per day, giving you an automatic production of 1 milk per day. You can manually milk Annabelle 1 additional time per day, and after completing quest 153 "The Milk Maid", you can also manually milk Julia once per day. Giving you a maximum production of 3 milk per day. There are some caveats though:

- Annabelle can only be milked while pregnant or up to 20 days after her pregnancy.
- Julia can only be milked while pregnant and only while horny.
- Milk will spoil after some time, there can only be a maximum of 7 milk in storage.

You can manually turn milk into cheese by interacting with the milk crate in the farm building. 1 milk will produce 1 cheese. You can also pay one of Julia's children to produce cheese for you. This costs 2 coins per day. The child will automatically convert all available milk to cheese at the start of each new day.

This ensures that no milk goes to waste if the player doesn't visit the farm for prolonged periods of time. The cheese table can store an unlimited amount of cheese.
