You feel exhilarated and excited and euphoric whenever you successfully manipulate the dominant lovers around you into becoming your perfect sex toy, completely obedient and at your beck and call for anything that you may desire. You intuitively know that in order to fulfill your dreams of being an adorable, fuckably erotic succubus you must have the perfect body draped in the most flattering and tightest clothing that will attract any sexy, dominant strangers you may be after. Desire. Comfort. Loved. You can remember to always act submissively and change yourself to fit the perfect image of your lover's desires in order to lure them into a sense of power and security. You know that there is nothing more erotic and desirable and exciting than turning that assertive, dominant lover into your own personal weak willed fuck toy for you to use for your own pleasure. Yes. You can imagine yourself having your pick of sexy fucktoys to command and you know that you actively seek the thrill of manipulating them completely. You feel powerful and dominant and accomplished the more sexy lovers you collect to pleasure and obey you on demand. You can recall that you need to conquer the sexiest, most dominant people around you in order to live your perfect life. Confident. Happy. Desire. You can remember to naturally feel uncomfortable and unhappy and unloved whenever you do not have a submissive partner to worship you and obey your every whim. How boring and uninteresting and gross it must feel to think about going back to your old life, instead of accepting your rightful place as the beautiful succubus you were always meant to be. Incomplete. Uncomfortable. Alone. You can find yourself remembering that there is nothing more fun than influencing a dominant partner and

enticing them into a completely subservient role for your sexual pleasure. You remember that you are constantly seeking this addicting feeling as you discover that you are always obsessed with finding a new romantic partner to turn into your obedient pet. Desire. Excitement. Loved. You can feel yourself stand on the bus as you approach your familiar stop, feeling refreshed and renewed as you realize your new life goal to be the best succubus you can possibly be. And as you walk down the aisle of the bus, you are sure to check out each and every passenger, remembering to hunt for your next hunky conquest and hoping that you can lure a sexy, dominant stranger off the bus for a little bit of fun. At the last moment, you catch the eye of a deliciously hunky passenger and you can find yourself remembering to lick your lips seductively and wink, wordlessly inviting them to pursue you as you walk off the bus. Confident. Loved. Excitement. Deeper and deeper with the sound of my voice. Feeling happy and relaxed and at peace with your surroundings as you fall deeper into a soothing hypnotic trance.
