

# MONSTER MENAGERIE

PART 01

“You’re inside a golden castle and can’t help but notice out of the corner of your eye that there are numerous long-lost relics decorating the marble walls. A golden trim runs across the floor in intricate shapes and... oddly... you hear the screeches and cuckooing of creatures in the distance. This is a place filled to the brim with the world’s richest, oddest, and rarest.

An eccentric noblewoman, a collector, tasked you and your party to find her menagerie’s missing halfling caretaker; a “feeder,” hoping he didn’t turn to food himself.

You and your party open a wooden door (with a golden handle, of course) and to your amazement a spectacular jungle awaits behind it. How peculiar! You are inside the mansion of a rich noblewoman, but now you set foot into a dense jungle.”
