

PIC SET
SEPT -19
"BATH"

A woman with long black hair, wearing a pink strapless dress, stands in a futuristic shower. She is adjusting a control panel on the right side of the shower. The shower has a blue top and bottom section, and a grey middle section with several circular buttons. A speech bubble is next to her.

Oh, so many settings!
What is this "L" one? Might be worth a try.

Foreword:

Thank you for supporting me for another month on Patreon.

These pictures that follow were suggested by you. They were pretty fun to draw. I took around one day to complete them.

A woman is depicted from the waist up, completely encased in a thick, shiny, pink latex. She has long, straight pink hair and a shocked expression with wide eyes and an open mouth. She is standing in a shower stall, with several showerheads visible on the wall behind her. Some showerheads are spraying pink latex instead of water. The shower stall is set against a purple background. A blue pedestal is at the bottom of the stall, with a puddle of pink latex on it. A speech bubble is in the top right, and another is in the bottom left.

Not another latex shower !

Shower cycle restarting in 20 seconds.
