Name:	Spoon of Sorcerer's Gold	
Rare (one of a kind)	Worth: 2,500 -7,500 GP	
	<p>This spoon was forged by master craftsmen who specialized in enchanted spoons. This spoon is one of a kind in a set that has been scattered across the lands by treasure hunters and collectors.</p> <p>This spoon is gold plated, decorated with a platinum plate, and embedded with glowing gems in the handle. The platinum plate has a slot for inserting coins that seems to disappear into nothingness. For every 1,000 gold deposited into the spoon, one gem will glow green and dim according to money stored inside. This spoon can replace any single material component so long as you hold a sample of said component within the dip of the spoon. The sample is not used for the spell; the money inside the spoon is used instead for consumable components or otherwise. Price requirements that are not specified take up gold equal to the material component at market value.</p>
