# INTRODUCTION

Hi everyone, it's Amy. In this tutorial, I'll show you how to paint Angron's face. This tutorial will cover painting and highlighting red skin, painting teeth, horns and eyes. I hope you find this tutorial helpful!

Start by priming the whole miniature with an airbrush using **Vallejo Black Surface Primer**, you can use whatever your preferred primer is of course!

## PAINTS:

## ALSO USED:

**Vallejo Black Surface Primer**

## TOOLS:

The brushes I used for this tutorial are **Rosemary & Co Series 33 Sizes #1** and **#000** for the fine details.

An airbrush was used for applying basecoats and for a zenithal highlight but if you don't have one it isn't essential!

### PAINT STEP BY STEP WITH THE ARTIST!

Wherever you see this button this tutorial has an accompanying audio commentary from the artist.

# ANGRON'S FACE

## STEP 1

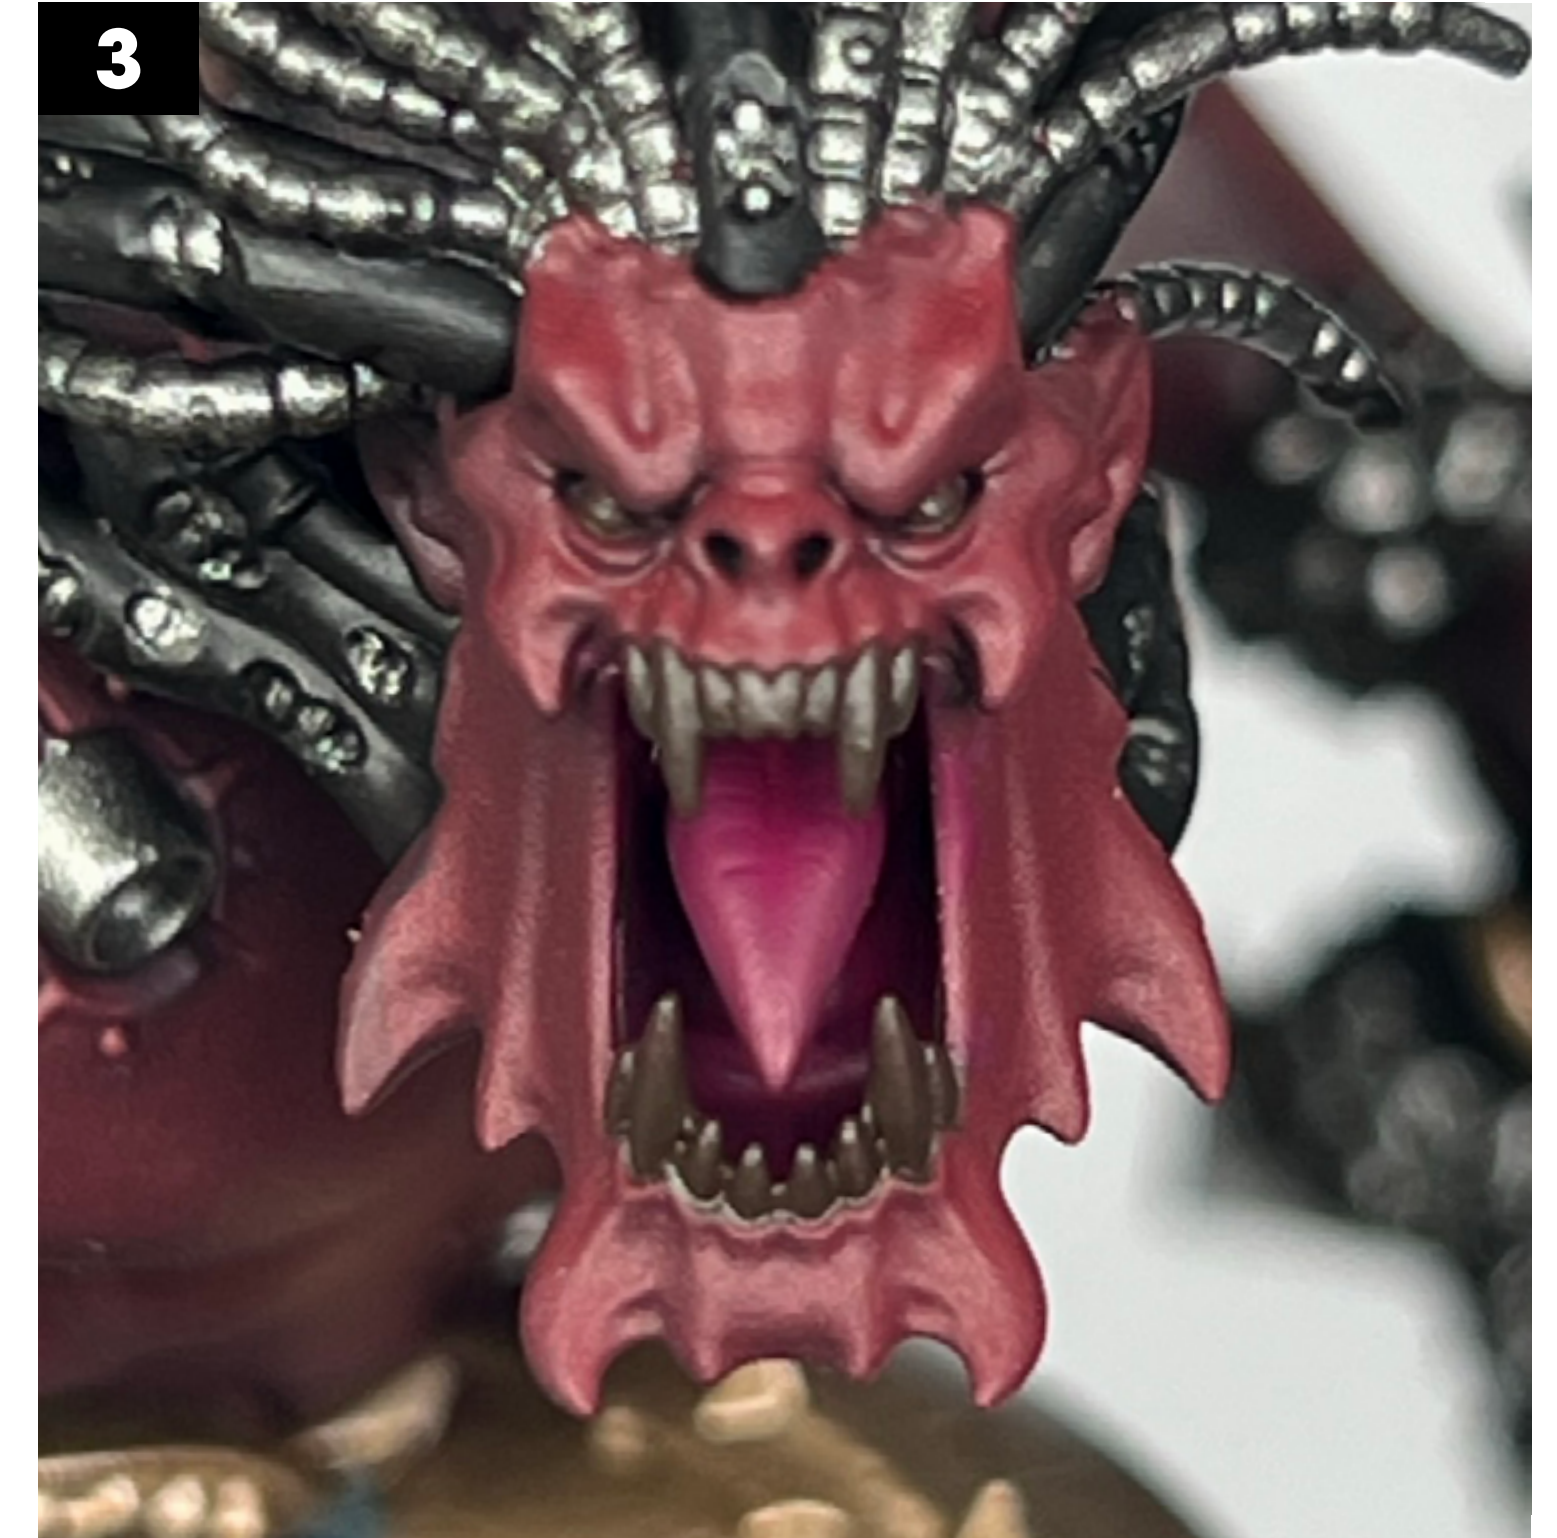

Basecoat the skin using a mix of **Incubi Darkness** 1:1 **Khorne Red**.

## STEP 2

Using an airbrush, apply a zenithal highlight of **Khorne Red** to the skin.

*You can use a brush for here just focus your application on the uppermost surfaces leaving the deepest shadows in the recesses and lower down as the base colour.*

## STEP 3

Basecoat the other elements of the face using **Rhinox Hide** for the eyes and teeth and **Screamer Pink** for the tongue.
