But also, don't you think you're moving a little too fast?

What do you mean?

I mean like, you and Cherie hasn't even been dating for a year!

Your anniversary hasn't even come up and you're thinking about MARRIAGE?

Besides, isn't Cherie's super busy with work right now?

Do you think he has time to plan a goddamn wedding??

He'll be stressed out of his mind!

How is that moving too fast..?

It's your life, I just don't want to see you fumble Cherie just because you're impatient.

What? I'm not gonna "fumble" Cherie.

He told me I was the best boyfriend ever!

Okay, okay. If you're that confident, I won't stop you.

But I wanna be maid of hon-
