

# Mia's Humiliation Poll

Lets see what would really tease and humiliate you - then if you're lucky - I'll do it to you. Read the poll options in detail below then vote *on Patreon* for the one that gets you hot and humiliated.

## 1. Doggy Days (Porn)

Many boys are still prone to fall play with porn. We are going to exploit this weakness. Once a month you can or must edge and squirt to porn, sharing with TheHypnoMistresses the images you jerked off to, so we can have a laugh. The rest of the month, you are locked in chastity.

## 2. Candy's Pantyboy (Spanking)

Your clueless mind is lured into Candy's bedroom... where her not-so innocent intentions for you become clear... as she bribes you with candy after candy in exchange for your clothes and your pride. You simply cannot resist... and before long you are laying there naked, with a sweet in your mouth, taking whipping after whipping from her riding crop.

## 3. Cuckold (BBC)

She's going to take a boy with a big cock. Make you watch. Deny you of this pleasure. Keep you locked up and desperate, or let you jerk your little wiener as you stand in the corner, aroused... weak and helpless... watching her have orgasm after orgasm from a strong BBC.

## 4. Cum Slut (CEI)

You are a cum licker. You clean up your mess, you lick up every last drop that leaks from your cock, every single time. Swirling it around your tongue... keeping it in your mouth, and then swallowing... showing Mistress what an enthusiastic cum slut you are.
