

# **Geobukseon Lair by Tom Cartos**

## **Background**

The Geobukseon, or 'Turtle Ship', is effectively an ocean-going tank. Its armoured hull and closed deck make it almost impervious to enemy attacks. It is fast and mobile, and its small but powerful cannons fire from all 4 sides. Under an experienced captain one of these ships can penetrate an enemy line and disrupt an entire fleet singlehandedly.

## **Grid Information**

**GRID SIZE – 34x22 (300DPI)**

**VTT SIZE –4760x3080 (140DPI)**

**RECOMMENDED PRINT SIZE – A1/ANSI D**
