Wait. Doc?
What the hell?

She wasn't even involved in this.

How did she get here?

Shit.
Busting out, asking
questions later?

Agreed.

Almost there.

Neat
trick.

Thanks.

We are still cuffed, though.

Hang on, I have a plan.

A 3D rendered female character with vibrant red hair and a matching red beard. She is depicted from the chest up, facing left. Her mouth is open, holding a yellow spear with a blue, three-pronged tip. She is bound with thick, green, braided rope around her neck and shoulders. The background consists of a weathered, grey-green metal door with some faint markings and a small blue sticker. The character is positioned on a concrete ledge.

Language. You don't want me to decrease the value of Miss Pretty Face over here.

Now tell me,
how do you manipulate

A 3D rendered scene set against a brick wall. On the left, a man with short brown hair, wearing a bright yellow jumpsuit, is seen from the back. He is looking towards the right. A speech bubble originates from his mouth, containing the text "Well, there's my ticket out of here." On the right, a woman with a short, vibrant red wig is shown from the chest up. She is wearing a thick, green rope around her neck and another around her waist. She has a somber expression and is looking down. The floor is a dark, grey, textured surface. The overall lighting is even, highlighting the textures of the brick wall and the characters' clothing.

Well, there's my
ticket out of here.
