VIRNYM

rogue: neutral evil.*

Personality Traits. Virnym is an exiled elven assassin who prefers to fell his targets from afar. He is calm, pragmatic, and excessively efficient. He lies only when necessary, and is most known by his moniker “The Night Stalker”. He is exceptionally dangerous and a successful career killer.

Ideals. I’m loyal to friends, not ideals. Everyone else is inconsequential.

Fears. I don’t want to die alone. No contract is worth dying for without my friends there.

Quirks. Casually steals. Cuts his own hair.

Secret. While Virnym struggles with love, he can, and has, found it with his male companions.
