

Mindset - Jealousy

Hey there girlies! A big point of contention in some developing sissy's lives is their lingering attraction to the cute girls they are trying to imitate. No matter how hard they try, they just can't seem to stop having incorrect fantasies about boring women, instead of correctly lusting after big strong hunks to play with their growing girly titties and soft, curvy bodies. These girls desperately need a reminder of how boring and disgusting other women's bodies are and how correct it is to be attracted to beautiful men and their dominant cocks.

Any girl listening to "Mindset - Jealousy" will find her eyes immediately drawn to the fashion and movements of the pretty women she meets instead of anywhere vulgar or disgusting. She will be constantly comparing her appearance with the women around her, and trying to outdo any girls she feels looks cuter than her. Listeners will slowly learn that women are in their lives to be role models and authoritarians on their road to sissy perfection, and nothing more. Other females will become uninteresting sexually as they could never use these sissies or give them the pleasure like a real man's cock could.

This file doesn't try to create an attraction towards men, and instead focuses on eliminating any lingering desires for boring women and their gross vaginas. With a little time, effort, and jealousy, you too can be held and taken care of like the delicate woman of your dreams!
