

For those downloading the PC version:

Please download the attached file XX_KamichichisGirls-win32-x64.zip.

The files are compressed in a zip folder.

Make sure you extract them first and then click on xx_KamichichisGirls.exe to start playing.

For those downloading the Android version:

- ① A warning like the one in the image might be shown.
Press "Download" to proceed with the download.
※For those concerned about the security warning, please play the PC version instead.
※The warning screen may be different depending on your Android device.
- ② Press "Install."
- ③ Make sure to press "Install Anyway" instead of "Ok."
- ④ Press the app icon to start playing!
The Kamichichi girls will always be with you wherever and whenever you want.

System requirements:

■ PC

CPU: Core i3 minimum. We recommend a Core i5 or above.

Memory: 4 GB minimum. We recommend 8GB or more.

Storage: We recommend an SSD with 256 MB of available space.

Display: 1920 x 1080 px or higher (the window can be resized by dragging).

■ Android

An Android device with at least 4GB of memory running Android 7.0.
